### AN "ENOCH ARDEN" PLOT

Search for Pierre Paul Auther, missing "Spanish grandee" chemist of Highland Park, near Chicago, and Mrs. Charlotte Franzen, of Madison, Wis. shifted today to Philadelphia. Unusual charges of larceny preferred by the woman's husband, Philip M. Franren, chief decorator for the University of Wisconsin, have been preferred.

The warrant obtained by Franzen accases Auther of "stealing Franzen's wife at the point of a pistoi and forcing him to hand over \$100 to pay for the honeymoon." Franzen says his wife's statements lead him to believe wife's statements lead him to believe the couple may be in Philadelphia. On New Year's Day Auther disap-peared from his home in Highland Park, leaving his wife and baby girl. When Auther appeared at the Franzen

bome last Tuesday night, according to Franzen, he declared Mrs. Franzen was the woman he had married thirteen years ago in Australia.
"I have searched for her for ten rears." Franzen quotes Auther as saying, while pointing a pistol at Fran-

her."

Documents waiving claims to each other were signed by Franzen and his wife at Auther's command, Franzen

says, and then the visitor stood guard while Mrs. Franzen went out to cash her husband's check for \$100.

Franzen says he was resigned to the situation until Wednesday, when he received letters from Mrs. Auther de laring intercepted letters convinced claring intercepted letters convinced her that Mrs. Franzen was trying to steal her husband. She was convinced then, he declared, that he was the rictim of a "framed" Enoch Arden

Mrs. Paul Auther, at Chicago last night, said she did not believe Auther erer was married to any one but herself.

"Why, Australia is the only country bear not been in," she said, "so

try he has not been in. 'she said, 'so he couldn't have married any one there thirteen years ago. That story about being married in Australia sounds too much like one of his romantic yarns."

### Rhinelander Asks That Closer Unity With People Be Developed

Urging a closer bond between the head of the diocese and his people, Bishop Rhinelander said: "I am not pleading for the bishops to be honored—but simply that they be used in their office. We could accomused in their office. We could accom-plish any great social reform if we were
