MRS. CHARLES E. There are certain differences in the manners and customs of the people of the United States and those of Latin America. Diplomacy must, of course, pay much respect to the amenities and those differences must be borne in mind. It therefore happened that when Mr. Root was on his way to the South there went with him one who was so thor-oughly schooled in Latin-American cus-toms as to guarantee the secretary against making mistakes.

In my travels here and about, I notice that a number of the shops are baving sales of Turkish towels. And to see the price of fifty cents on a tableful of really nice Turkish towels is by no means unusual. It becomes rather a question of finding the table that has the nicest towels at that price.
