WEATHER Fair

Up Here in Front You Get the New Styles and the New Low Prices First

The New Year Offers the Most Time, But None to Lose

The people of the United States, who with one mind and one heart united to "see the war finished," though it took hundreds of thousands of our men for soldiers and sailors, and billions of money, can just as easily determine to get together to demand and secure peace without further delays, if they will organize to do so.

What is the use of "dillydallying" about it, thereby mortgaging the prosperity of the future? Let the public sentiment of the country, soon to convene, speak promptly through the legislatures of each State to their representatives in Washington, insisting upon prompt, conclusive action upon terms of decisive peace as a New Year's gift to the business world of America.

With the clouds of uncertainty removed, 1921 will be a banner year for the nation.

A Great Big Clearaway of Great Luggage

Actual Savings of 35 to 50 Per Cent on Our Own Fine Stocks and Splendid New Purchases

This is far and away the most important disposal of luggage we have had in years. Prices are lower than they have been on similar goods for a long, long time.

We prevailed on two leading manufacturers to sell us some of their best pieces at pretty nearly a flat concession of 50 per cent.

We also took a lot of the most desirable pieces from our regular stocks and lowered their prices accordingly.

The result is a luggage sale that no one in need of such merchandise, now or in the coming Summer, can afford to miss.

There is everything in the clearaway—traveling bags and suit cases for men and women, vanity cases, overnight cases, kit bags, portmanteaus.

All of fine leathers and many kinds of leather—cowhide, seal, walrus, pigskin and other excellent skins in various grainings. Black and various shades of tan.

Nearly half the pieces are fitted, and the fittings are ivory, sterling silver, white and shell-finish celluloid. Many of these fitted bags and cases are extremely handsome and luxurious and rare values at their lowered prices.

Prices start at \$7.50 for a traveling bag that was more than double this price and go to \$125 for a superb aluminum body traveling case with fittings of ivory and silver.

There are many prices between, and the majority of them are halved. The least you save is 35 per cent and in some cases it is 50 per cent.

Beautiful Sicardo Pottery at Half

We have fifty pieces of this remarkable ware, all of which are marked at half the original prices.

Sicardo pottery is one of the most interesting wares known, many people considering it the most beautiful pottery in the world.

Its distinguishing characteristics are a remarkable glaze and a strange elusiveness in colors.

So far as the makers are concerned, it did not prove commercially profitable, because the materials used are so valuable and costly that even at a seemingly high price the finished article would not pay them a reasonable profit.

All of this ware that we bought came to us to sell at specially low prices, and now these last fifty pieces are at half.

Vases, usable for lamps or as ornamental pieces—\$12.50 to \$62.50 each.
