No better illustration of the new era dawned in world diplomacy when President Wilson and his corps of assistants went to Paris... A better illustration of the new era dawned in world diplomacy when President Wilson and his corps of assistants went to Paris... A better illustration of the new era dawned in world diplomacy when President Wilson and his corps of assistants went to Paris...

At least 150 persons from all sections of the country are expected to attend the reunion dinner of the old Philadelphia Press to be held this evening in the gold room of the Adelphi Hotel. Men who have gained unusual success in journalism and other fields, formerly identified with the Press, will be present to make the affair one of the most notable newspapermen's dinners ever held in this country. The Philadelphia Press, from the day it was started by the late Colonel John W. Forney, before the Civil War, until last fall, when it passed out of existence, enjoyed the reputation of having had on its staff probably more men who have risen to prominence than any other newspaper in the United States. It was on the Press that Richard Harding Davis and Stephen Crane received their first newspaper training. Among the former Press men now living are: Colonel Henry Watterson, Clark Howell, editor and publisher of the Atlanta Constitution; James O. D. Paine and Reginald Wright Kaufman, the novelists. Colonel George Nox McCain, of the Evening Star, and Stephen Crane, the toastmaster at the banquet. Speakers will include Henry L. Stoddard, editor and publisher of the New York Evening Mail; Cyrus H. K. Curtis, publisher; Oswald G. Villard, editor of the Nation and former publisher of the New York Evening Post; Prof. John D. Durkin, West Philadelphia High School for Boys; Karl Bloomingdale, president of the Poor Richard Club; Bradford Merrill, general manager of the Hearst newspapers; Governor William C. Sproul, Alden March, former editor of the Press, now of the New York Times; Dean Hoffman, editor the News and the Patriot, Harrisburg; James O. J. Duffy, William W. Long, of Coatesville, a member of the State Legislature; Ben Gordon, George G. Pierce, of the Board of Registration Commissioners; Dr. Talcott Williams, director emeritus of the Pulitzer School of Journalism, Columbia University; Thomas D. Richter and Charles M. Lincoln, general manager of the New York Herald.

Men's and Young Men's Suits With Two Pairs of Trousers

Monday **\$29.75**

Less Than the 1920 Wholesale Price And Far Below the 1921 Value

This is a special purchase of several hundred Suits, identical in quality and tailoring with Suits for which we paid more in 1920 than this special retail price for Monday—\$29.75. A neat gray smooth fabric, of which we have sold thousands of Suits. Plain single-breasted models, two- or three-button Coat, and two pairs of trousers. All sizes—regular, short, stout, tall and slender—\$29.75.

COULDN'T KEEP HIM DOWN

Man Bowled Over by Explosion and Struck by Auto Sends Fire Alarm

Knocked to the street by the explosion of a gas meter, then struck a minute later, by an automobile as he was dashing for a firebox, Lee Grant, a Negro and former service man, 1406 Fitzwater street, was able in spite of all to send in a alarm.

A leak of gas in the home of Leo Schucker, 5715 Ludlow street, caused the explosion when the fumes ignited from a heater in the cellar. Grant was passing the house when the explosion occurred.

The car which struck him while he was crossing Fifty-seventh street, was driven by Charles Hutchinson, Merchantville, N. J.

Grant suffered no injuries from his two accidents.

CRAMP'S START 5 CRUISERS

Yard Officials Endeavoring to Obtain Work for 7000 Men

The Cramp Shipbuilding Co. has commenced the construction of five scout cruisers for the navy.

Contract for the ships were made with the Navy Department before the war, but their construction was set aside while the plant concentrated on destroyers.

The last of the torpedo-boat destroyers will be completed this month.

The number of men employed at the shipyard has been gradually decreasing since 1919, during the peak of war work to 7500. Officials of the company hope it will be possible to make sufficient contracts with private firms to retain this number and to avoid cutting the vast force down to the pre-war figures of 5000.

AIRY TROLLEY CARS URGED

Dr. Furbush Says State Health Agents Are Interested in P. R. T.

"The Department of Public Health is interested in the proper ventilation of street cars," said Director Furbush in commenting on the air-tight trolleys introduced today by the P. R. T. to insure clean air in the cars by keeping the ventilators open.

"Fresh air is the best way of safeguarding the health and comfort of the passengers, many of whom have been to blame in the past for closing ventilators. It is quite possible to have the cars well ventilated and warm enough for comfort at the same time. A cool, airy car is a hundred times safer than a crowded, overheated, shut-up one."

FIND DEAD MAN WAS RICH

\$100,000 in Mortgages in Custom House Custodian's Desk

One hundred thousand dollars in mortgages were found yesterday when the desk of John J. Morris, custodian of the Custom House, who died a few days ago, was being cleaned out.

No one connected with the government office ever dreamed that Morris had left so much wealth. It was also found he had a safe-jammed full of "sightless" securities.

Representatives of the late custodian took charge of the find. His only living relative is a sister.
