Dear Madam—As suggested by the present style of sweaters in the fash-lonable winter resorts, what do you suggest will be the popular model for this summer's wear? I appreciate the help of the Woman's Exchange very much. AUDREY.
There are two styles of sweaters that are extremely popular just now, and it is safe to predict that they will stay "in" for at least the early part of the "in" for at least the early part of the summer. They are the slip on, with long sleeves, and the neck made higher than formerly, so that it comes just below the collar of those waists that have the Peter Pan or Dutch collars. These are made fairly full so that they blouse over a belt. Then there is the drop stitch sweater which is made in the tuxedo style, and comes just a little below the waist. This is made with three rows of solid knifting and then a row of open work which is very decorative and more dressy than the stockinet which is used for the other style.
