THE Phila have started to rebuild a championship ball Stallings completed arrangements for the exhibition games with the Phila in the South in April and also filed an

order for all superfluous players on the local payroll.

'I have a ball club in the making,' said Stallings.

When I started I had a ball park and a franchise. Now I have balf a dozen players and fifty promises. If I can cash in on the promises I should have a good team. Fred Merkle will play first base, and I expect him to do great work in the International League. He is far from being a bas-been. There are several years of baseball

What I need most is a catcher, but I expect to land one in a short time. I wish I could get out like Peters, who was purchased by the Phils from Birmingham last year. Peters is one of the best young eatchers I ever have en, and I have looked at a lot of them. I discovered Bill Killefer, Jimmy Archer, Ed Sweeny and other stars in my time. Peters should go big in the National League. His bitting might not be up to the mark, but he more than makes up for it on the defense. He is a brainy

"Barney Dreyfuss told me the same thing." broke in President Baker. Barney tried to get Peters last year, but failed. Out in Chicago he told me that Peters was a high-class performer. This is the first time I ever have heard Dreyfuss penise a young player."

Bill Killefer is visiting his wife's relatives in West Chester and will be here all week. He will leave for the coast in a couple of weeks and do some preliminary work before the squad arrives. Bill's injured tinger is in good shape again and be expects no further trouble.

"We will have a fighting ball club this year." he said "Johnny Evers has a flock of young players to be tried out and some are said to be stars. We need a bard-bitting outfielder and a first baseman, and if they are discovered we will make things interesting for the other clubs. pitching department will be strong, and that is more than 50 per cent of the club."

Bill, DONOVAN will leave for Gamesville, Fla. D on February 28 with Sam Payne. The ball grounds will be half soled and beeled, to say nothing of cleaned and pressed, under Willyam's eagle eye,
