LOOK TO UNREAD JURORS IN MINGO

Natives Who Can't Read Only Ones Left Who Are Eligible for Jury Service

ONE HADN'T HEARD OF CASE

Encolal Disputch to Evening Public Ledger Williamson, W. Va., Feb. 3.—Hopes of securing a jury to try Sid Hatfield and his associates now rest with the mountaineers from the remote sections of the county, the denizens of the cabins and huts of the mountain slopes, who are now on their way to court. They reside in sections far back from the railroads and could not be reached by the deputy sheriffs until late yesterday.

When court convened this morning with sixteen men in the jury box, it was found that there were no talesmen on hand for examination and court promptly adjourned until 1 o'clock The talesmen are coming in from dis tant points and they could not be here in time for the opening of court. A week has now elapsed since the trial started.

It has become apparent that it t useless to aummon the residents of the towns of the county as these who are eligible for jury service cannot qualify by reason of their kinship, their scruples against capital punishment, and also the fact that the ensational battle at Matewan has been talked over so often that people have formed their opinions already.

Back in the mountains the case has not been discussed so much. Many of these mountaineers do not read or

He explained that he did not get any newspapers because he did not read. His neighbors live so listant that he seldom comes in contact

with them, affording little opportunity for gossip.

His information concerning labor unions was vague. Workman did not have any scruples against the death penalty and he was promptly accepted by both sides. These poets may write about being in beautiful garden of roses, but had a much more p'easant experience yesterday when we waiked into the Wil-liam H. Miss Weisman appeared rather bash ful when we tried to extract some facts from her about her life and her adventures while 'im'rickin'. The other teachers, however, simply swamped us with the most intimate details concern-ing today's winner. So we will reveal some of them to you, and Miss Weis-man will have to settle things up with her friends. She can't come back at us and try to take our scalp because we haven't any scalp left to take.

By the Associated Press Washington, Feb. 3 .- The major ship remains the basis of seapower and those who argue that the airplane and the submarine have supplanted it are askng the country to "accept hopes for ccomplishments," the navy general board says in a report to Secretary Daniels.

"The general board, having kept in touch with naval progress along all lines," says the report, "reiterates its belief in the battleships as forming the principal units of the fleet. Without them the United States cannot hope to cope with existing navies."

Urging that "equality in power be the continuing naval policy of the United States," the board says there is "no thought of instituting international competitive building" and that "no other nation can in reason take exception to such a position."

Call for Armament Equality "It cannot justly be construed as a challenge," the report continues. "A policy of equal or substantially equal armaments may well tend to diminish their growth and to lessen the danger of sudden war." of sudden war.

The report, signed by Rear Admiral Charles J. Badger, president, and former commander-in-chief of the At-lantic fleet, was approved by Secretary Daniels and was transmitted by him to the Senate naval affairs committee for its information in considering pending disarmament and "naval holiday" resolutions.

Asserting that the guiding policy that had shaped the general board's con-struction recommendations since 1903 was that of eventually creating a navy was that of eventually creating a may equal to the strongest in the world, the board urges that "no rest period or limitation of armament" be agreed to by the United States that would modify the United States that would modify 1921. the great naval-building program of 1916, now under construction, in "numers, general types or dates of com-

and hoboes.

The Mayor deserted City Hall for about three hours yesterday. He took with him all his directors and City Solicitor Smyth, and conducted what City Hall calls a "cabinet" meeting aboard the city ice boat, John Weaver, during a trip that included an inspection of the river front.

Several subjects affecting the municipality were discussed in the ice boat conference. They included the unemployment situation the all-absorbing question of the widespread movement among city placeholders for salary increases; the new Delaware river piers to be built between Market and Cherry streets, and the possibility of inducing the government to extend its line of Government - owned self - propelling barges to Philadelphia.

The demands for salary increases have reached such proportions that the Mayor vesterday announced that he had appointed Frank H. Caven, director of public works; George F. Sproule, director of whaves docks and ferries.

Brokers Trying to Find Customers to Whom They Sold Securities Chicago, Feb. 3 .- (By A. P.) -- Efforts are being made today to locate in Enlisted Men and Officers Enter-Chicago the holders of Liberty bonds valued at \$235,000 declared by federal authorities to be part of \$466,000 worth

worth of the bonds of Chicago brokers, when the firm sent \$100,000 worth to their New York office. The bonds were presented to the Federal Reserve Bank ing at the Civic Club, 1300 Spruce there, to be exchanged for smaller de-nominations and clerks immediately identified them as part of the loot ob-

tained in the Brooklyn robbery. R. J. Friss, secretary at the brokerage company offices here, said the firm had distributed in Chicago the remaining \$135,000 worth of bonds. He said company bought the original \$235,-000 worth of bonds, from the Union and Planters' Bank and Trust Co., of Memphis, Tenn., which institution has informed him, he added, that they ob-tained them from a Memphis brokerage

firm.
Mr. Friss said he was checking up to find out who received the bonds distributed by his firm. They will be re-called, he said, and returned to the Memphis bank.
