Both "Silhouettes"—The New Colors—Spring's
Favorite Fabrics, Especially Tricolettes and Taffetas

Tricolettes from dress-manufacturers whose favorite material it is—and their enthusiasm shows in the styles. Mostly embroidered.

Taffetas—taffetas galore! Eyeletted within an inch of their lovely lines! Ruffled from long waist to short hem with tiny satin ribbons! Ruffled—with every ruffle set bias! Pleating-trimmed—with every pleating standing up, instead of down—or down, where you'd expect them to stand up! Or bat's-wing draped—sewed on to the bodice with the quaintest rose-garlanded, color-faced, deep beading you ever saw! Band-trimmed—but the way Paris does it! And there's even a model with its lovely deep ruffles set on a-spiral! And—oh, those basque styles!
