

PHILA. HEIRS ASK DIVISION OF ESTATE

Appropriation for Care or Invalid Uncle in Excess of His Needs

WANT SURPLUS DIVIDED

Four Philadelphians have begun an action in equity in the Cincinnati, O., courts to obtain division of an accumulated estate of several thousand dollars, and to enable them to have the use of additional moneys which, with the use of a trust, also would be tied up and accumulate.

They are Dr. William B. Whetstone, 4820 Cedar avenue; Robert B. Whetstone and Walter W. Whetstone, 922 South Forty-ninth street, and Richard Whetstone, whose address is not given. They are the sons of R. Allison Whetstone, who died at the Forty-ninth street address in 1919, and the grandsons of the first R. Allison Whetstone, who was a wealthy Cincinnati business man, and who died in 1859.

The plaintiffs cite that the will provided that their grandfather's estate should go to his two sons, R. Allison Whetstone and John W. Whetstone. The plaintiffs are the sons of R. Allison Whetstone, who died in 1919, and the son of John W. Whetstone, who died in 1910. Their mother, they allege, has been an invalid since 1881, and can never recover. About \$1500 a year is used from his share of the estate to provide him every reasonable comfort, it is said, but the remainder of the income, amounting to about \$1200 a year additional, is being allowed to accumulate. They ask that this excess be paid to them, as they are the only heirs.

It is that portion of the income which

has accumulated since the death of Mr. Whetstone, less than two years ago, together with the unexpended portion left to take care of John W. Whetstone, which the plaintiffs wish divided. The action was taken, secondarily, to develop a mode of procedure by which further accumulations will be avoided.

Strawbridge & Clothier's Winter Clearance Sale of Men's and Young Men's Clothing

Begins To-morrow

The Prices in This February Furniture Sale

—Are lower than Furniture prices have been for several years, and far lower than Furniture could be bought to sell for to-day. In fact, the general reduction in the manufacturing market at the end of the year was only 15 per cent., and no further general reduction is promised before mid-summer. One-third Reduction

—And in some instances one-half reduction—throughout our entire stock. That is 33 1/3 or 50 per cent. to be deducted from the price on the tags, which had already been marked with the new lower 1921 price.
