In a letter addressed to the Editor of the Evening Public Ledger the Philadelphia Textile District Council, United Textile Workers of America, suggest a "get-together" meeting with the employers, when the labor difficulties existing in the industry here might be adjusted. This offer follows the publication in the Evening Public Ledger February 14. 15 and 16 of a series of three articles by Sherman Rogers, labor expert, in which the views of both the employers and the workers were voiced, and a way out of the difficulties shown. The offer now made by the workers is in line with the suggestions of Mr. Rogers.

The offer will be considered tonight at a meeting of the executive committee of the Philadelphia Textile Manufacturers' Association. William J. Tracy, mediator of the state Department of Labor and Industry, says that the workers' proposal is "a step in the right direction."
