La Camera Approva il Progetto per l'aumento del Prezzo del Pane

Published and Distributed Under Authority of the City of Philadelphia, Pa., by the Executive of Philadelphia, Pa.

Roma, 23 febbraio.—Il Governo, oggi, dopo un lungo dibattito, è riuscito ad ottenere l'approvazione della legge per l'aumento del prezzo del pane, con il quale si provvede a far fronte al forte deficit dovuto al prezzo fissato in precedenza. Il disegno di legge presentato

al governo ha ottenuto una maggioranza di circa 200 voti.
La Camera ha inoltre approvato l'autorizzazione al Governo di aumentare il prezzo pagato per i generi alimentari provenienti da quelle nazioni in cui la moneta italiana subisce un forte deprezzamento. Tale proposta è sorta in conseguenza del fatto che l'Italia paga per il carbone, farina e materiale grezzo lire sterline e dollari, il quale prezzo per gli italiani rappresenta cinque volte di più il prezzo regolare di detti generi.
La Camera ha anche approvato il raddoppiare la tassazione sugli oggetti di gioielleria, profumeria, medicine,

Talk to the owner of a Steele-built factory

The strongest recommendation of The Steele Idea of Industrial Construction is the eminence of the clients we have served and their satisfaction with the plants we have created for them.

Talk to the owner of a Steele-built factory—go see his plant in operation. The factory and its owner will both support our assertion that The Steele Idea of a factory planning and building not only saves money in the first cost of the plant, but increases the efficiency and decreases the cost of plant operation.

Fifty per cent. of our business today comes to us unsolicited through clients we have satisfactorily served during the 56 years of our career.

Under The Steele Idea of Industrial Construction your plant is designed, built and equipped by one organization composed of men who not only know *building* but manufacturing. There are men in our organization who are especially fitted to build *your* plant because they understand and have studied *your* particular problem. Equipped with this knowledge they are competent to devise and scheme a plant arrangement that will fit *your particular needs* with exactness and precision.

If you are a manufacturer thinking of building, rebuilding or enlarging your plant, consult us. We will be pleased to prove to you without cost or obligation the value of our service. Phone or write for an interview.

SECOND helpings are the rule whenever you serve Abbotts Ice Cream. The whole family wants "more" of that mighty good dessert. It's made by the same Abbotts who probably serve you every morning with milk and cream.

Conveniently near your home is a store where Abbotts is sold. You can tell it by the familiar red and white sidewalk sign. There you will get the most enjoyable ice cream made in Philadelphia, plus clean, quick service.

And you pay no more for Abbotts sold the new way (in machine-filled packages) than for ordinary ice cream served the usual way.
