STATE NEAR CLOSE IN MATEWAN TRIAL

Shooting Ends His Testimony

WITNESS DESCRIBES FIGHT

Williamson, W. Va., Feb. 25.-The prosecution's case in the Matewan street-fight trial today neared its close, it was said by those closely interested. A few more witnesses remain to be heard, but the bulk of important testimony for the state is believed to be

before the jury.

Thomas L. Felts, general manager of the Baldwin-Felts Detective Agency, seven of whose operatives were killed during the battle that followed the eviction of miners' families from Stone Mountain Coal Co. houses, was recalled the coal of the Mountain Coal Co. houses, was recalled to the witness stand today. Yesterday he testified that personal property supposed to have been carried by his brothers, Albert and Lee Felts, at the time they met death, had not been turned over to him. According to witness' testimony. Albert Felts had between \$800 and \$1000 in his pockets. The money, he testified, was never placed in his hands. Felts today was asked to identify a pistol introduced in evidence and alleged to have been taken from Sid Hatfield several weeks after the shooting. Testimony along that line was ruled out by Judge Bailey, as having no direct bearing in the case, and Felts was excused. was excused.

Felts was excused.

Al Hoskins, formerly a constable in the Matewan district, testified that he was in Matewan during the fight. During the cross-examination Hoskins denied that he told the grand jury that Isaac Brewer fired the first shot which killed Albert Felts. He described the shooting and named a number of the defendants as participants. He testified that Reece Chambers, one of the men on trial, was firing a rifle, taking deliberate aim. Hoskins said he saw Lee Felts and Tott Tinsley fall, but would not swear that Chambers' fire was the cause.
