"There Is One Good Wife in the Country"

and happy is the man who knows he has her. But he should tell her so for encouragement in her servitude to make the home a little heaven on earth for the family and their friends.

One travels the world around and comes back invariably to say, there is no place like home. Do you remember that you were tearfully homesick the first time you went to Europe among strangers and had to work your way with unknown languages?

The undoing of men and women who come to large cities from the country is mainly because they left their homes behind them and nobody seemed to care.

Women's Evening and Dinner Frocks at \$50

About seventy-five little frocks which are still in their glass cases have had something like \$25 taken from their first prices because sizes are broken. They are made of radium taffeta, soft satin, satin and net, soft taffeta and charmeuse with lace or net; and their colors are the lovely turquoise, orchid, mauve and apricot, besides a few other pastel tints and white. There are scalloped skirts and petals and voluminous draperies and they are really very charming indeed for \$50.

Diamond Bar Pins Mounted in Platinum

There is no question at all but what the diamond bar pin is the most fashionable form of jewelry at the present time and modern styles in dress are such that it can be worn with practically every costume. The fine openwork platinum mountings add a wonderful degree of brilliancy, and according to what one wishes to pay, there may be one, three or five diamonds. Bar pins with but one diamond start as low as \$180 and go up to \$950 for those with five good-sized stones.

THE Furniture Sale with all its opportunities is nearly over.

In the kind and quantities of furniture involved and in the savings offered, it has proven itself the greatest sale ever known. All that is great and unprecedented in it is due to one thing. That is the offering of our whole stock of furniture, the finest in the country, at a deduction of 33 1-3 per cent, except some things at a deduction of 50 per cent.

This means that there never was such a wealth of good furniture offered at such large savings. The outcome was very natural to expect—there never was such a demand. We have met the demand, and now we are ready

Still the Sale With the Goods

It is a paradoxical thing, but it is true, that the sale that sells the most is still the sale with the goods.

This is the sale with the goods today, just as surely as it was on the opening day. It is still the sale with the most goods, the right goods, the best selections, the most genuine savings. It will be the sale with the goods until the very end, and the end will be at store-close on next Monday evening.

Up to that time you can choose anything in the whole stock at a saving of at least 33 1-3 per cent, but not afterward.
