

STOCKS ASSUME WAITING ATTITUDE

United States Steel Stages Most Impressive Advance of Short Session

New York, Feb. 26.—Price changes today in the stock market were unimportant. Apart from the half-day session, traders were inclined to wait and see how the repatriation effort in London next week would get under way. Some interest was expressed to attach great significance in the summing of Marshall Foch to the meeting, but the general impression is that both Germany and France are doing a lot of professional jockeying.

United States Steel, with a point rise to 81, staged the most impressive advance of the day. Judge Gary's announcement that neither prices nor wages would be cut in the steel industry apparently was construed favorably in respect to the company. Conference in hand, there are rumors which hold that Controller Williams, that the United States Steel Corporation is committing an economic mistake in its present standing pact, while the rest of the industrial world is trying to bring about a readjustment by the lowering of prices and wages. The industrial stocks did not have the same strength as United States Steel.

The bear contingent was leading some contention and this was reflected in a loss of more than a point. Atlantic Gulf was again attacked and gave way to 44 1/2. Outside of these new stocks, the selling was not pronounced and some of the issues that have been under pressure lately showed rallying tendencies.

Selling for stocks accounts, with a preponderance of short offerings effected in increased impairment of quoted values in all but the more representative shares of the issues. The industrial classification suffered extreme reactions of 3 to over 10 points, some selling under low records of last 10 days.

Developments were mainly of a character to discourage public interest, these ranging from further unfavorable statements of earnings by various companies to additional dividend suspensions and expansion of unemployment.

The money market was apparently easier, but actually unchanged, so far as quotations or offerings referred to long time accommodations. Banks bought sparingly of commercial papers, but bank accounts were firm on the rigid attitude of the Federal Reserve Board.

International events were again rendered irregular by the shifting of events in connection with approaching conferences of the reparations commission. The latest official figures from the foreign front, falling off the preceding day, were:

The trend of prices in a short session on the local stock exchange was to lower levels. Business opened dull and showed no great amount of animation at any time during the session. Pennsylvania Railroad again assumed leadership, ranging between 40 1/2 and 41 1/2, at the close of the day. Below last night's closing figures, a slight gain in Pennsylvania Railroad was noted. Improvement in the preferred shares of the Philadelphia Electric Co. were other features of the day. Profits, both being weak, though the common shares of the latter were higher on small transactions at 22 1/2 and 22.

The remainder of the day developed little of interest. American Sugar made a quarter point gain, but lost it in a later rally. The market was quiet, with a few transactions in the afternoon.
