# PRINCIPAL-TEACHER SPLIT IS AVOIDED

Higher Officials Limit Size of Organization, but Remain in the N. E. A.

## TRAINING IS DISCUSSED

Atlantic City. March 1.—A sen sational fight among members of the Department of Superintendence of the National Educators Association, was avoided today by the insertion of one clause in a paragraph of the reorganiza-

tion committee's report.

The clause means the Department of Superintendence will not second from the National Education Association. The reorganization plan, adopted to-day, will mean two radical changes. One is in the number of members which will be reduced from 7000 to something like

The other is in the matter of election. The ballots prepared for this convention will be discarded and nominations will be made from the floor. It is underbe made from the noor. It is under-stood the same names as those on the previously prepared ballot will be nom-inated. Heretofore a nominating com-mittee was appointed by the president, and this committee prepared the ballot for election.

The provision for membership reads: "Merbership in the department of clude state, county and city superin-tendents (1000 population or more), assistant superintendents and all state and national officers of school administration who are members of the N. E. A."

### Finances Kept Separate

The clause providing that the departpart of N. E. A. does not prevent other organizations from meeting at the same time and place and having their memhers attend the convention of super-intence. It simply limits the voting

"The department of superinten-dence," the report reads, "shall pro-vide its own system of financial sup-port and shall financially ze independent of the N. E. A."

It was decided to offer a resolution to the main body recommending the manner in which a school superinten-

dent should be chosen.

William H. Allen, director of the
Institute for Public Service, reviewed prolonged efforts of the Philadel board to pick a superintendent He said there was a feeling that school-men have been subject too long to the whims of school boards. The teaching personnel, he said, should be consulted when a superintendent is being chosen.

## To Form Committees

One suggestion advanced was that committee of teachers be formed in any city where a school head was to be tive of all grades, it was said, should negest candidates.

Disarmament and general world

peace, prohibition and universal woman suffrage are leading factors in the development of new educational methods, according to Henry Snyder, superinten-

struction must reflect our new rela-tionships with other countries. As the prohibition of the liquor traffic becomes effective, the immediate results ought to be the disappearance of the parent who is neglectful of his children through drink, the re-establishment of parental authority, the close co-operation of the family with the school and many other obvious reactions favorable to the cause

Both accomplishments will release instruction in civic matters must be made to appeal to them equally strongly. Next to the child, the schools concern the mother most directly. We may confidently expect that the advancement of education will reflect woman's influ-

One important change in modern edu-cation is its inclusion of health training, in the opinion of Thomas D. Wood, of Columbia University.

A great safety campaign for children

of school and pre-school age is a vital necessity. Deadly and ruthless warfare is bring constantly waged against child life and health by unregulated trade and industry, and by failure to provide adequate space and safeguards for normal activities of childhood.

# PANCOAST TWINS RESCUED AT FIRE

Richard and Howell Pancoast, 2220 De Lancey street, were rescued last night during a fire in their home. They are children of Mr. and Mrs. Howell J. Pancoast

### VISITOR AND MAID SAVE PANCOAST TWINS IN FIRE

Carry Boys From Smoke-Filled Room in De Lancey Street Home Dick and Howell Pancoast, Jr., nine year-old twin sons of Howell W. Panconst, were saved from probable suffocation during a fire at their home, 2220 De Lancey street, shortly before midnight. The children were rescued by Morris G. Belmar, who was visit-ing Mr. Pancoast, and Naomi Alleyne,

While Mr. Panconst was reading louds of smoke suddenly drifted from the cellar stairway. He went to the cellar to investigate and Mr. Belmar groped his way through the smoke-filled house to the bedroom of the chil-dren. With the assistance of the maid he carried the boys to the first floor. They were not injured.
