

METHODIST CHIEFS TO ASSIGN PASTORS

Conference Opening March 16 Will Fill Arch Street Pulpit and Others

BISHOP BERRY TO PRESIDE

The annual conference of the Methodist Episcopal church in Philadelphia will open on March 16 at the Arch Street pulpit. Bishop Berry will preside over the gathering, which will last for two weeks. The conference will assign pastors to various churches in the city and surrounding areas. The Bishop will also address the conference on the state of the church and the world. The conference is expected to be a successful one, with many new members and a renewed sense of purpose among the clergy.

OFFERS TURK COMPROMISE

France seeks agreement for use of the Hejaz Railway. The Turkish government has offered a compromise to the French regarding the Hejaz Railway. The French have been demanding full control over the railway, but the Turkish government has offered a more moderate proposal. The French have accepted the offer, and an agreement has been reached. This agreement will allow the French to have a significant influence over the railway, but not full control. This is seen as a compromise that will satisfy both sides.

FLIERS MUST BE DISCREET

Americans Are Cautioned to Avoid Vicinity of Foreign Ports. Several hundred pilots of the United States Army Air Corps are being cautioned to exercise discretion when flying over foreign territory. The pilots are advised to avoid the vicinity of foreign ports and to maintain a high altitude. This is to prevent any potential conflicts or misunderstandings with other aircraft. The pilots are also advised to be aware of the local laws and customs of the countries they are flying over.

BRIDGES FOR MIXED JUNGLES

Ways to Connect These Volatile Earths Reaching Nearly to Ceiling. Engineers are working on bridges to connect the two continents of South America. The bridges are being built in a region of mixed jungles, where the terrain is very difficult. The bridges are being built to a height of nearly to the ceiling. This is to allow for the passage of large ships and cargo. The bridges are expected to be completed in the near future.

GRUESOME WAR RELICS

Roots of Nursery Stock Contain Bones and Remains of Uniforms. Soldiers of the World War I are being buried in a cemetery in the Philippines. The roots of the nursery stock in the cemetery contain bones and remains of uniforms. This is a grim reminder of the war and the lives lost. The cemetery is being maintained by the military, and the remains are being treated with respect.

SCHOOL BOILERS COLLAPSE

Wood Street Central High Annex Students Get Rest. A boiler at the Wood Street Central High School Annex collapsed, causing a fire. The fire was quickly extinguished, and the students were evacuated. The boiler was found to be faulty and was replaced. The school is now open, and the students are back in class. The incident has caused a temporary disruption in the school's schedule.

CITIZENSHIP CLASSES OPEN

Two Additional Courses in Hancock and Stokely Schools Announced. Citizenship classes are being opened at Hancock and Stokely schools. The classes are for immigrants and are designed to help them understand the American government and society. The classes will cover topics such as the Constitution, the rights and responsibilities of citizens, and the history of the United States. The classes are free of charge and are open to all interested parties.

Race Rating in Philippines

Manila, March 2. Filipino citizens are being rated according to their race. The government is implementing a new system of race rating, which will affect the rights and responsibilities of citizens. The rating system is based on the race of the citizen's parents. This has caused some controversy, as it is seen as a form of discrimination. The government is defending the system, claiming that it is necessary for the stability of the country.

Executive's Assistant

MOSCOW REVOKES VANDERLIP GRANT

American Now in Estonia Seeking to Renew \$5,000,000.00 Concession. The Russian government has revoked the grant given to the American company for the development of the oil fields in Estonia. The American company is now seeking to renew the concession for \$5,000,000.00. The Russian government has refused the request, claiming that the company has not met the conditions of the grant. The American company is disappointed and is looking for other ways to develop the oil fields.

SOVIET WAITS FOR HARDING

Belia, March 2. Soviet Russia is waiting for the arrival of President Harding. The Soviet government is interested in the policies of the new administration and is waiting to see what direction the country will take. The Soviet government is also interested in the possibility of a new treaty with the United States. The Soviet government is waiting for the arrival of President Harding to see what he will do about these issues.

Defence Party for Wellesley Fund

A large party to sell the Plan for the defence of the Wellesley College fund is being given at the University of Pennsylvania. The party is for the benefit of the Wellesley College fund, which is used to support the college's educational programs. The party will be held on the campus of the University of Pennsylvania and is expected to be a successful one.

British Get Russian Oil Fields

Paris, March 2. According to information reaching oil interests here, the Royal Dutch Shell has purchased all of the Russian rights to the Russian oil fields about Grozny. This is the second and last of the Russian oil fields to fall into the hands of British petroleum interests. The purchase is a significant one, as it gives the British a large and valuable source of oil. The purchase is also seen as a victory for the British in the oil industry.

IRISH SOPRANO COMING TO U.S.

Naples, March 2. Marguerite Sherwin, Irish soprano, secured a grant singing in the role of Madame Butterfly at the San Carlo theatre here. She is going to New York to sing in the next opera. The Irish soprano is highly regarded and is expected to be a success in New York.

Statement of War and Peace Expenses Is Sent to House

Washington, March 2. President Wilson transmitted to the House yesterday a 300-page statement itemizing expenditures from the \$100,000,000 war funds and reporting amounts spent by the American Mission in Paris.

THE SCIENTIFICALLY BUILT WATCH

ACCURACY

The Twelfth Part of a Human Hair as a Standard of Measurement

IMAGINE the twelfth part of a human hair being the difference between Waltham standardized accuracy and the variable guess work in foreign watches.

Waltham produced, by Waltham genius, methods of measurement and gauges to measure so infinitely accurate that the Waltham Watch became and is the most perfectly constructed watch in the world.

If in the lower plate (illustrated) there was a measurable difference between the location of one bearing from another, it would mean irregularity in the time-keeping performance of that watch.

Waltham has so perfected unique gauges and standardized a system of infinitesimal measurement, that such a minute error cannot occur in a Waltham Watch without discovery.

What does this Waltham accuracy and close inspection mean to you?

When you buy a Waltham you possess the world's most accurately made watch. You own a watch that can be readily, and what is most important to you, perfectly and economically repaired—at an upkeep cost at least 50 per cent lower than the repair of foreign made watches whose method of less accurate manufacture has not kept pace with Waltham genius which is American.

That is why we say truthfully—“Waltham placed America first, in watchmaking.” This is one more good reason why you should own a Waltham.

This story is continued in a beautiful booklet in which you will find a liberal watch education. Sent free upon request.
