NOW LISTEN DEAR - BE REASONABLE -

PAT MORAN is working hard with what is left of the champion Cincinnation Reds, but at the present writing he doesn't know what it is all about. Of the former pennant winners he has one catcher, one outfielder and four pitchers. The others either have gone the voyage by way of the minor leagues or trades, and four athletes who really are the strength of the ball club are holdouts.

14

Ed Rouseh, Heinie Groh, Jake Daubert and Larry Kopf are not among those present and practicing. This only means that the infield is all shot and the outfield is in the same condition. The stars are not at all anxious to sign the papers unless substantial raises are offered. That's the reason they are stars. Jake Daubert, however, will be back.

Therefore, Moran is wearing a worried look as he puts the remnants of the once great ball club through the morning and afternoon practices every day. He can't get anywhere because he has no team and no plans can be made until the recalcitrants report. There is no doubt that the boys will be in the line-up when the senson starts because it would be had business to keep such men out of the game. But it can be stated that the demands will be given the merry ha ha and the exorbitant salaries ignored.

It is the custom each year for some of the players to dodge the training trip and the holdout stunt is the most popular. The boys receive no remunera tion for working in the South and far be it from them to do anything for rothing. They have an idea of baseball which has been formed through scrutinizing the financial pages of our great daily newspapers.

REALLY is sad to see the Reds in action at this time. I saw them in Ranger, Texas, the other day, playing a game with the Columbus Club, which is managed by Clarence Rowland. Only one regular, Pat Duncan, was in the line-up.

Has Good Batteries

BRESSLER played first; Fonseen, second; Crane, short; Sammy Bohne, third; Paskert, right field; See, center; Hargraves, catcher, and Brenton and Coumbe, pitchers. That was the aggregation which buttled the men from the American Association and it looked decidedly weak. And it will be much weaker if the boldouts do not klek in with their 1921 contracts.

There is one bright side to the picture and that is the battery department, Pat is well heeled and admits it.

'I have two of the best catchers in the league." he says, "in Ivy Wingo and Bubbles Hargraves. They are classy and will do most of the work. Tom Conway, a kid we discovered a couple of years ago while he was in the army, is coming along well and will be the third receiver.

"But the pitchers will be exceptionally good. Luque, Hod Eller and Ray Fisher have shown lots of stuff, and Brenton and Napier have impressed me greatly in the early workouts. Then take my lefthanders: Eppa Rixey is bappy to be with the club and will have a great year. Rube Marquard also is in great shape and Bressler and Fred Coumbe will be able to step in any time and help us. I only wish the rest of the team compared favorably with the pitchers and catchers."

Moran has one star on his ball club at present and he is Sammy Bohne of Seattle. This kid is all they say he is and more. The day I saw him play he hit four home runs and a single in five times at bat, two of the homers coming in one inning. He fielded his position like Groh at his best and made some sensational stops on hard-hit balls. Bohne is good-there's no doubt about that-and he probably will remain at third base, "If Grob signs," said Moran, "he will play second base. Heinie can

play that position and I will keep Bohns at third.

THAT'S a significant statement for the manager to make, especially when he admits he will take the best third baseman in the league and try him out at another position. Still, after watching Bohne in action. Moran cannot be blamed, provided, of course. Heinie can get by as the guardian of the keystone suck.

Fonseca at Second

 \mathbf{F}_{by}^{onseca} is now playing second. This kid was recommended to the Reds by Justin Fitzgerald, who once played right field for the Phillies, but couldn't remain because of a sore arm. Fitz boosted the Portuguese athlete and the boosts have not been wasted. The youngster hits well, and while his fielding is a trifle sloppy it is good enough to pull him through. Pat had an idea that Bohne would fill in at second until he saw Sammy

play third. Now Fonseca is the foriorn hope. Sum Crane is at short, and while he is a sensational fielder, he cannot hit the size of his hat. That almost opens the gates for Sam.

D^{ODE} PASKERT will be a great help to the club. The veteran is as fast as ever, knows the game and will steady the youngsters if Rousch fails to show up.

Sore at Holdouts

THERE are some young-ters in the camp, like Denny Williams, of Moose Jaw, and Biz Dawson, of the University of West Virginia, outfielders, and Carl Schmelt, Bill Schirmer and Rulph Shafer, infielders. These will go big down here, but will be missing when the senson starts. Maynard Felix, of Billings, Mon., is a first baseman who fields well but can't hit. That lets him out.

Taking it all in all, the Reds do not look very good and will not be formidable in the pennant race even if the stars decide to play for slightly abnormal. salaries. The team hasn't the proper spirit, and this spirit will not improve when Rouseh, Groh, Daubert and Kopf return. The other players who have been working their heads off under a bot Texas sun will resent the easy time the holdouts have been having, and there will not be a joyial, friendly feeling.

Last year the Reds developed temperaments, could not forget they had won the championship, although it was forced upon them, and tried to get by on their reputations. This failed and several have been disposed of. Rath was waived out of the lengue, Ring and Neale traded to Philadelphia. Reuther to Brooklyn, Sallee to New York and Bill Rariden has retired. Six of the regulars departed in that manner, and with four others holding out, it is hard to see where there is any kind of a ball club. In their places Moran has Rixey, Marquard, Hargraves, Bohne and Paskert
