Orange, Tex.—E. C. Landgraf, president of the Syracuse team of the International League, is due at the training camp of the Cardinals here today and indications are that arrangements will be completed for the Cards to acquire George ToFourcer, the unfielder who wears spectacles while playing. Tornorcer is the property of Syracuse. The cards open a two-game series with New Orleans, of the Southern League, at Eogalusa, La., today.

Waxabachie, Tex.—With a flot victory over the New York Ginnis as ond team, the White Sox squad is ready to incide the Cincinnati Reds at Fort Worth his afternoon. The rifield obtained from the Salt Lair, of the Parine Coast League, exhibited some sensational fielding in vesterday's game, executing two feutile plays.

STRIPED BASS IS DESIRED MOST BY

Also Known as Rockfish, This Species Is of the Gamest Variety

DOES NOT BECOME ACTIVE UNTIL MIDDLE OF APRIL

By W. E. MEEHAN

Catfish and suckers are all very well a session. n their way, and both hold a very high

he winter months and the first for legal fishing is usually the trout. But his year there is another that as a rule shy does not become active until the middle

state and is taking food with avidity. This is the big, tremendously hard-fighting and much-sought-after striped tive existence. ass, often called rockfish,

A fine specimen was caught last week by Harry M. Souder, of Millville, N. J. Mr. Souder is an enthusiastic structurbass fisherman and every year begins his quest for that fish the moment he iks the fish starts its annual activi-His eatch this year is many weeks earlier than his first last year, which was April 12.

There is always more or less uncertainty about striped bass fishing, as there is about nearly all the great game fish that may be angled for in fresh four to three wins in the first seven their capricious whims, few or none

barren intervals. Bearing these things The American entrants were B. Y. White, of Bowdoin, in the running high jump; G. A. Trowbridge, Princeton, in the 120 yard high hurdles; F. K. Brown and B. W. Smith, John Hopkins University, and A. J. Rees, little in the highest class by sportsmen.

listed in the highest class by sportsmen in this state. New Jersey and Dela-ware, it is specifically declared by legisspectators when B. G. D. Rudd, Ox-ford, who ran in the Pennsylvania relays last year at Philadelphia, was twice beaten. He finished third in the 100-yard dush and second in the guards.

Important as a game fish, the striped bass is even more important as a com-mercial food fish. To avoid confusion in the understanding of the laws relating to fishing, it was considered desirable by the three states to classify the fresh water fishes with three group game, food and bait fish. As the striped bass is not altogether a fresh water fish and because of the other reason just given, the game striped bass rated as a food fish.

Legal Regulations

legislation, and that is that it is un-lawful to catch and keep any of this species of fish, either with rod and line or with nets, from the Delaware river a draw after the fortieth neve. or any of its tributaries, that weighs Wednesday nights, likewise resulted in

ever twenty pounds. It might also be mentioned that there | no decision. minimum leogth of twelve inches, night. All other fishes either have only a minimum catchable size or no length regu-

maximum catchable weight of a striped bass, equally cogent with its classifica-tion. There is probably few, if any, species that makes as rapid a growth He is working in conjunction with Jack Curley, America's grappling impresario.

John Pesek, the Nebraskan, known as the "Benreat." who is matched to meet Lewis next month, will meet Steve Stasiak, the Polish giffnt, here tonight.

the number of eggs a female deposits is prodigious. It is to protect these and let them propagate that the maximum catchable weight is a legal regulation. itchable weight is a legal regulation. For many months in the year yast ambers of striped bass are found in numbers of striped bass are found in fresh water, in the Delaware river as far as Hancock, N. Y., and even be-yond. Nevertheless, its native home is in the ocean, and is a member of the

en bass family. It is, however not as pronouncedly saline in its habits as many other sea fishes of anadromous nature or ever as much as the head of the family.

Like its cousin, the little white perch, the striped bass, when not in altogether fresh water, seems to prefer heavily brackish, like the lower reaches of the Maurice river, for instance,
