'How about my pitchers?' asked Lee in reply to a question. Well, I expect they will be all right. The old guard, which consists of Urban Shocker, Dixie Davis, Allan Sothoron, Bayne, Burwell and Vangilder, thould come through as usual, and there are a few youngsters who might stick.

Harry Rush, of Deentur, has been showing well, and the same goes for Tom Lukasovie, a right hander from Mobile, Ray Kulp, of Akron, and Emilio Painero, the Cuban hurler, from Omaha. In addition there are George Bochier, the old Detroit pitcher, who was purchased from Jopli Cullop, who had a good season at Salt Lake. Nick says he is up here to stay this time, and has out out all of his foolishness. 'Ray Richmond, of Tulsa; Harry Haid, of Mobile; Joe DeBerry, of Greenwood, Miss., who was with us last year, and Steve Farrell, of Flint. Mich., are the others. It is too early to judge them now. This was an unusually long speech for the new pilot of the Browns, but he seemed to be willing to gossip while sitting on the doorstep. His men were doing their work without a slip-up, and Lee had nothing on his mind to disturb him. The boys were indulging in some batting practice and the sluggers were slamming the ball. The right field fence is not too far away, and I saw eleven balls sail over the barrier in half an hour. Ken Williams and Todt had the range, and Sisler also lifted a few into the woods. This was because the pitchers were not curving the ball and just laid it in the groove "Those guys have knocked a couple of hundred balls over that fence." "I am glad they are doing it, because they are pleased with themand Fohl selves and the reporters have something to write about. Perhaps they will ned to it when the season starts. A few home runs will not hurt in May and June.

Cabili also are trying for seals but no mo-event these four will row in a Junior cent-pede. Paul Costello, who will do the senior single rowing for the club, was out in his single yesterday and books a little heavy. By the end of July he should be in good enough condition to bring the national cham-pionality to the Veaper. Muller has two junior eichte rowing, and the three eights are rowing about four miles every night. As soon as the days are long enough they will go over the entire course.

. . . $\mathbf{T}_{cacc}^{O(M,V)}$ mind, the Browns are one of the dark horses in the pennant cace. With Gleason coming through at second and a couple of rook a pitchers able to take their turn in the box, the team will be hard in beat

Don't Forget Sisler

TT MUST be remembered that George Sisler is on the ball club, and that means a whole lot. George did some wonderful batting when he led the league last year and established a new record with 257 base hits for a total of 300 bases. The latter mark probably will stand for some time. Ruth, with his dity-four home runs, was able to total but 388, and the chances are he never will come that close again

Sieler is a smart player, thinks quickly on the field and also shines on the Walter Gerber also is a brainy gent, and the pair should steady the infinit.

King Gleason looks very good. He seems to be able to hit fairly well, taking a position at the place unilar to Heinle Grob, although he doesn't wave his bat so much. Smith is certain to stay, so with the outfield well taken care of, the catching staff (). K, and the pitchers in fair shape, the club looks pretty good for the opening of the sedson. With any kind of breaks. and if none of the stars are injured, the team will cause a lot of trouble.

The Browns unished second in 1902, under McAber, and fourth in 1908. Jimmy Earke piloted the club into fourth place last year, and the other times

St. Louis was in the second division. Food is the eighth, non-ager to be in charge and has a chance to be up in the brst division this year. However, he will predict nothing

"I WOLLD say we would bush first." he said as I moved away from its door tep. "if we were the only club in the league. You news panel scribest can do the picking. I'll do the best I can and let it go at that
