HOLE SAVES MURDER TRIAL

Rip in Pocket Prevents West Chester Man From Drawing Pistol
West Chester, Pa., March 23.—A hole in the pocket of Norman Green, of West Chester, saved him from a possible murder trial last evening, but he is in prison here awaiting a further hearing before Justice Pratt on the charge of attempting the life of John Richardson, of Avondale.
He will also face charges of bootlegging. Richardson purchased a quart of alleged gin from Green, according to the story of the police, but failed to pay for the same, whereupon Green placed a revolver in his pocket and went after him. He met his intended victim on the street in Avondale and reached for the revolver, but the barrel struck in a hole in his pocket and by the time he was ready for action, Richardson had fled. Green was disarmed by bystanders and turned over to the officers, who brought him here.

U. S. APPEALS FOR BERGDOLL CHASERS

State Department Instructed to Ask Executive Clemency of Berlin

Washington, March 23.—When the news that the two American sergeants who attempted to kidnap Grover Cleveland Bergdoll had been conducted in a German court reached the War Department last night it was stated that an appeal for executive clemency would be addressed to the German Government.
War Department officials said that the State Department had been asked to transmit the appeal for clemency to the Berlin government in the event of the conviction of the sergeants.
Recalling that the War Department takes "prompt and decisive" steps to secure the return from Germany of Grover Bergdoll is made by the American Legion's national legislative committee in a letter to Secretary Weeks, made public yesterday by the committee.
Detective Carl Neaf and Fred Zimmer, attached to the American army of occupation, who failed in their sensational attempt to apprehend the slacker, were found guilty of "illegal assumption of power" in the criminal court at Mosbach, Baden, yesterday. Neaf was sentenced to serve fifteen months in jail and Zimmer six.
Neaf was also charged with "inflicting bodily injury." During the attempt to arrest Bergdoll last January, Neaf accidentally wounded a German girl when he shot at an automobile in which the draft evader took flight. The girl was riding in the car.

Threatens Action Against Transfer of Authority in Kamchatka

DEMANDS MADE ON CHITA

By the Associated Press
Tokio, March 23.—Japan will be obliged to adopt whatever action may be deemed necessary to preserve her rights in Kamchatka, if the Russian Far Eastern republic persists in its course of transferring a part of that peninsula to the authority of the Russian Soviet Government, Viscount Uchida, foreign minister, declared in the House of Peers here yesterday.
After stating Japan had recently received information that such transfer had been made, he said this country had sent a protest to the Far Eastern republic administration at Chita, and had submitted five demands. He declared that these demands had not as yet been accepted.
Japan has extensive fishery interests in Kamchatka.
This report of the transfer of part of the peninsula of Kamchatka to the Soviet Government in Moscow appears to have a direct bearing upon concessions granted there to Washington B. Vanderlip, of California, by the Bolshevik regime in Russia. The concession, covering the exploitation of the oil, coal and fishery interests of Kamchatka, was granted last year.
Mr. Vanderlip, returning to Russia, arrived in Moscow on March 8. Since that time official statements made by leaders of the Russian Government have indicated a reversal in economic and political policies by the Bolsheviks and a more friendly attitude seems to have been adopted.
Information indicates that the Vanderlip concession would be worked by Russian labor. It was declared that the concession was granted without restrictions as to methods of development. The Bolsheviks having waived their original demand that the exploitation of the property should be carried out under Soviet laws.

MANY early Philadelphians hid their money in "safe places," only to find it gone when they went to recover it. For them there was some excuse, as in those days of long ago the advantages of banking were not so widely known or so easily obtainable as they are today.
To keep large sums of money in the home or office is unsafe—failure to profit by the interest which that money would earn is unwise.
