

EDWARDS VETOES ENFORCEMENT BILL

Van Ness Measure, Backed by Anti-Saloon League, Up Again Next Monday TO DEFER 10-CENT FARE

Special Dispatch to Evening Public Ledger—Trenton, March 23.—Governor Edwards last night returned to the Assembly the Van Ness prohibition enforcement bill by which the Anti-Saloon League proposed that New Jersey should enforce the eighteenth amendment in New Jersey. The vetoed bill will be taken up next Monday night in the Assembly.

Before the Legislature adjourned for the week the joint legislative committee appointed to devise means to raise money to complete the state's highway system and institutional building program made its report.

The committee recommended the issuance of \$50,000,000 of highway bonds and \$14,000,000 bonds by the Department of Institutions and Agencies.

Both houses adopted a concurrent resolution for the Legislature to adjourn Friday, April 8, at 3 p. m.

Assemblyman Coons' bill to add the members of the Supreme Court to the court of guardians failed to pass the Assembly.

Confirmation of Governor Edwards' new public utility commission was followed by the board members taking office at once. John J. Treacy, of Jersey City, was elected president.

The board allowed a second three months' suspension in the case of the Trenton and Mercer County Traction Co., so that the proposed ten-cent trolley fare cannot become effective until May 28.

Awaiting action of the Legislature on the Franklin bill to permit the utility board to suspend for six months the ten-cent trolley fare of the Public Service Railway Co., the utility board took no definite action in the Public Service's case. If the bill is not passed the board will suspend the Public Service ten-cent fare until July 1.

The present three months' suspension order expires April 1.

The House is expected to concur in the Senate's action in overriding the governor's veto of the Case state constabulary bill when the Legislature meets again on Monday night.

A Series of Eye Talks No. 230

By Joseph C. Ferguson, Jr. Our Next Talk Wed., April 6th

A teacher in a public school in one of our larger eastern cities noticed that one of the youngsters in class was suffering from eyes which a later examination showed to be "out of focus."

The teacher's admonition was as follows: "Now don't go to a store and buy glasses. Tell your mother to take you to a good oculist. Buying glasses without having your eyes examined by an eye doctor will only make them worse."

And remember this—if glasses are prescribed the work is only half done when the prescription has been written and upon its proper execution depends success or failure.

See that your oculist's prescription is filled by a special-ist in making and fitting glasses as prescribed.
