Johnny Evers, Cubs' New Director General, Needs One More First String Hurler to Complete Staff

The Party of the many than the party of the same of th

CHICAGO CUBS, WITH GREAT HURLERS, LOOK BETTER THIS SEASON

Johnny Evers Faced Problem With Three Important Positions to Fill-Alexander, Tyler and Vaughn Sould Win Many Games-Not Claiming Pennants

By ROBERT W. MAXWELL Sports Editor Evening Public Ledger

Pasadena, Calif., March 29. JUST what will happen to the Cubs under the management of Johnny Evers is a problem that cannot be solved until the National League championship season is well under way. He has a better squad than represented Chicago at this time last year, but whether or not it can win a championship is some-

When Evers took hold of the club he bounced some of the older beln without driay. Fred Merkle was handed his unconditional release and Paskert was claimed by Cincinnati. On top of that Dave Robertson instituted his annual holdout stunt and President William L. Vecck took him at his word that business is more important than baseball.

Naturally, this left Manager Evers with three important positions to fill, There is no doubt of the caliber of the Cubs' pitching staff. Alexander, with twenty-seven victories and fourteen defeats for a sixth-place club last season, is at the top of his game. Tyler came back and wen fourteen games after July 1, and started out this spring where he left off. Vaughn is displaying greater sumption than usual. These three burlers, barring accidents, insure the winning of sixty games. Those games are in before the season starts. From this trie to the other pitchers is a considerable step. Evers has

dug up some promising young material, but there is no telling about kid pitchers much before the Fourth of July VIRGIL CHEEVES, on overgrown twenty-year-old boy from East-V land. Tex. has what Alexander teems "plenty of swift," and he knows something about the art of curving a ball. The older flingers

Freeman May Surprise

glone will tell if he is a real pitcher.

are scorking on him, figuring him to be a "phenom." He has the natural qualifications all right. The acid test of championship games

DERCY JONES, a left-hander from the West Texas League, is starting out Well, and so is Oscar Fuhr, a southpaw purchased from Omaha, of the Western League. He is about the Bleliest looking of the youngsters. Then there are "Speed" Martin and Abraham Lincoln Bailey, right-handers, who have threatened for several years to make good, but who usually wind up the eason in the bulipen. James York, a left hander, who had a trial with Connie Mack: Alex Freeman, from Beaumont, Tex.; James D. Kenny, a Chicago semipro: Harry Weaver, recalled from Kansas City; James Coble, of Chattanooga, and Earl Hanson, returned from Peoria, complete the pitch-

This man Freeman has been coming slowly and may prove a surprise He appears to know how to pitch, but is one of those quiet fellows who does not make much noise in strange surroundings.

It is evident that Evers must east about for a fourth first-string pitcher. His youngsters look good, but in all probability their lack of experience will serve to handicap the Cubs in the days of double-headers, as was the situa-

With Merkle gone there is a three-cornered fight for first base. Turner Barber is available, but can do better work in the outfield. Tom Whelan, of Georgetown, is a husky right-hander who has been coached well in fielding, He owns a powerful arm and has been hitting well in exhibition contests. Oscar Ray Grimes, a twin brother of the Giants' second baseman, is a large raw-boned person who topped the Eastern League in batting with an average of nearly 390. He requires more time than Whelan for conditioning, but the impression sort of sticks that he will be the Cubs' first baseman.

A NOTHER rookie for this job is Alfred Young, of Swarthmore Callege, who played last year with Bethlehem. He is a graceful fielder, but not so aggressive as his rivals.

Other Infielders Fixtures

TERRY is a fixture at second base and Hollocher at short. Deal will be anchored on third as long as his health permits. Johnny Kelleher, once with Brooklyn and last year manager of the St. Joseph, Mo., team, is a fast and finished infielder either at short or second. He no doubt will capture utility job. Hoke Warner, late of Pittsburgh and Kansas City, has returned to the game after a year's absence, and he may stick. Harold Leathers, picked up last full; Don Brown, Springfield, Mo., also are infielders. Bill Marlott, farmed to Reading, Pa., last year, was going along good

entil appendicitis sent him to a hospital here. Harold Leathers also is avail-He is small and fast and may develop.

George Maisel, purchased from Portland, of the Pacific Coast League. will be in left field, and he seems one of the most finished minor league ball players coming up in a long time. He packed a big batting average out here. If he can hit major league pitching he is a find, but he is one of those who seems to have reached the beight of his game before arrival in the big

Barber and Barney Frieberg, both of whom were with the club last season. are rivals for the center field position. The former bats left-handed and the Neither hit exceeding well last season. The Cubs could use a good outfielder. Max Flack, batting average about .280 year in and year out, will remain in right field.

TLARENCE TWOMBLY, who was with the club in 1920, and John CLAKENCE TWOMBLY, who was with the club in 1920, and John J. Stangelo, a Boston recruit, both are outfielders. Stangelo, is small, but cure tast and has a good arm. He lost \$125 in the Ponzi get-rich quick scheme. Neither Twombley nor Stangelo is looked upon as a regular.

Killefer's Digit Okeh

BEHIND the lat the situation is the same as heretofore. Bill Killefer's broken finger was result during the winter and is as good as new. He will broken finger was reset during the winter and is as good as new. He will do the bulk of the catching. Bob O'Farrell, who worked regularly after Killefer was injured last September, has shown vast improvement. He has one of the best arms in basebull and can hit. He is considered second-string man. Tom Daly will be retained as a pinch bitter. He was well over 300 last year. Two youngsters were sent up this spring. Frank Meyers was recommended by Itamie Archer, but he is not hig league. Johnny Dill, of Brawley, Chilf, had a trial on recommendation of "Speed" Martin.

The Cubs should get somewhere if the team can make a reasonable number of runs. The infield is strong every place but first base. Deal led the third basemen last year in fielding, while Terry topped the abortatops and was one point behind George Cutshaw as a second baseman. Maisel and Flack are fast and wearate. First base and center field, however, are problems.
"We aren't claiming any pennants or anything of that kind," is the
way Manager Evers puts it, "but we are going out there and play the best baseball we can differ that sithe difference between a losing and a winning ball club. He works the club care a day from 11 until 2, and forbids cating at noon and smeking in the clubbonse. Officewise, no rules.
