

NEW GREEK BLOWS MENACE ANGORA

Hellenes Capture Eski-Shehr and Afium-Karahissar. Keys to Important City

TURKISH LOSSES ARE HEAVY

By the Associated Press
London, March 29.—Greek troops occupied the city of Eski-Shehr, capturing many prisoners and a large quantity of war materials, says a Central News dispatch from Athens.

Eski-Shehr was one of the important objectives of the Greek offensive in Asia Minor, which began last week. It is the junction point between the main line of the Hagdud Railway and the only remaining southern route toward Konia. The capture of this city by the Greeks unites the armies operating east of Smyrna and Bursa and opens the way for an advance on Angora, 140 miles to the east.

Athens, March 29.—By A. P.—Turkish Nationalist troops suffered very heavy losses in the fighting which preceded the capture of Afium-Karahissar by the Greeks, says an official statement issued here. The Turks severely resisted the advance of the Greeks and made several counterattacks, but the Greeks, using gas, finally succeeded in driving the Turks from the city.

Severe casualties regarding the capture of Afium-Karahissar were reported by the Turkish forces had retreated northward toward Kutayah, but the official statement declares that the Turkish army is in the southeast in the direction of Konia.

Afium-Karahissar was occupied at 3 o'clock Monday afternoon, and the Greeks captured many prisoners and large quantities of war material, it is said.

Occupation of Afium-Karahissar, it is declared by newspapers here, makes the Greek march to Angora easy. The news of the Greek victory was received with joy in this city, where bells were being rung, flags being displayed and crowds gathering in the streets celebrating the event.

Declaration that the Greek delegates at the Near Eastern conference in London had "saved the Sykes treaty from falling into ruin," and that their efforts had been directed toward "the last word being given Hellenic arms," was made here yesterday by Premier Kallogeropoulos on his return from London.

"Greek guns are now having their say," he continued, "and they will be heard more and more. We will be able to secure the necessary financial support from allied sources to carry on the war. I am sure the continuation of the struggle will bring victory to Greece."

Constantinople, March 29.—By A. P.—Greek naval forces, it was learned today, are on watch in the Black Sea for Turkish transports in an effort to prevent the escape from Constantinople to Anatolia of Turkish officers and soldiers.

In withdrawing before the Greek advance in Asia Minor the Turks are blowing up the important bridges and

Many Theatrical Producers May Be Forced Out of Business
London, March 29.—By A. P.—Unemployment in Great Britain, like that in other professions and trades, is widespread here at present, it being estimated that there are now over 20,000 chorus girls and "soubrette" actresses out of work and it is feared that unless conditions improve immediately many producers will have to go out of business.

Oscar Aspin, one of the leaders in theatrical circles here, says that the problem is intensified because so many people come into the profession without credentials.

The secession movement was defeated in the independent labor party's convention here Monday when it presented a report favoring acceptance of Moscow's conditions for affiliation with the Third International, the said vote against affiliation standing 221 to 97.

OBJECT TO TARIFF PLAN

Business Men in Middle West Are Against Valuation System

Washington, March 29.—By A. P.—Protests against the legislation agreed on by Republican leaders to provide for tariff valuation at American instead of foreign valuations are being received by members of the Senate finance and commerce committees.

That inequalities and injustices would result especially to consumers of imported wares in the middle section of the United States, is declared by business concerns objecting to the new valuation plan.

Those contend that American valuations, merchandise differ at Boston, New York, San Francisco, New Orleans and other ports of entry, and that no inflexible standards of valuation are feasible.

Such objections, the Republican leaders say, can be met by provisions compelling consideration to give the Treasury commissioners authority to equalize valuation differences at the different American ports of entry.

P.—The last Japanese troops will leave the Chien-Tao district, west of Vladivostok and north of the Tumen river, on April 1, according to a Tokyo cablegram yesterday, to the Nippon Jiji, Japanese language newspaper here. Title to this district has been in dispute between China and Korea since 1885.

Gratitude for President Harding's support of the movement in America to raise funds for the suffering in Ireland has been cabled to the White House by the lord mayor of this city.

The grand and afflicted people of Ireland," the cablegram said, "are sincerely gratified by your encouragement of the movement to give them financial support. America was always true to Ireland in her hour of trial. The funds are urgently needed to restore buildings destroyed and to relieve distress."

The first anniversary of the Easter rising passed without serious incidents, and although outrages have not ceased throughout the country, there was a noticeable absence of murders and ambushes during the holidays. The realists of Kingstown were alarmed late at night by firing and bomb explosions and by reports of an attack on Kingstown naval base.

London, March 29.—(By A. P.)—The government today issued a white paper giving the result of the court inquiry into the affair of Mallow, Ireland, January 31, when several railway men were shot by officers who were attempting to run down the party of assassins which had wounded Captain King, a district inspector, and had shot his wife dead. The white paper shows that the court vindicated the action of the military and rendered a finding that the railwaymen had not been improperly dealt with.

The railway men were shot when the police, hearing the firing at Captain King, and his wife, rushed to the Mallow railway station, where it was alleged they were fired upon and then railway employee, who ran up the tracks, and wounding several others who accompanied him, one of these dying later.
