## **PIRATES HAVE EDGE** IN NATIONAL LEAGUE 1921 PENNANT RACE

Maranville Furnishes Needed Punch in Pittsburgh's Infield-McGraw Hopes Giants Can Pitch Way to Flag. Cubs May Surprise Fans-Brooklyn Will Skid

> By ROBERT W. MAXWELL Sports Editor Evening Public Ledger

THE National League this year is composed of two divisions, the first and ▲ the second This means there are four first-division ball clubs and the remainder are in the other class.

For the first time in many seasons it is possible to dope out the good clubs and the others which are not so good on the form shown in the exhibition games this spring. To my mind, the National League line-up is as

1-Pittsburgh 2-New York 3-Brooklyn 4-Chicago

6-Boston 7-Cincinnati 8-Philadelphia

Pittsburgh has the best-looking ball club I have seen this year and has every appearance of a pennant winner. "Rabbit" Maranville has furnished the needed punch in the infield and will keep the other players on their toes all the time. He is the first real shortstop the Pirates have had since the days of Hans Wagner. Dreyfuss certainly made a ten-strike when he lifted

Joe Tierney, the scrappy second baseman, who is making a home run record in the South, and Barnhart at third hase are other good reasons for thinking the Pirates' chances good. Barnhart is good enough to remain on the hot corner, which gives Whitted a chance to play the outfield, where he belongs. Tierney has been doing great work and Cutshaw will have to step some to get his position back. The outfield is good, the catchers very strong and it looks as if the pitching will come through

DITTSBIRGH has a well-balanced ball club, both on the defense and attack. The spirit is good and Gibson has a tram which will be mighty hard to beat.

### Giants Have Improved

NEW YORK is in better shape now than three weeks ago because of the improvement in the physical condition of Dave Bancroft. When the star shortstop reported to the club in San Antonio he looked bad. He was ten bounds underweight and seemed to be very weak. He had spent the winter In Hot Springs and it was reported that his heart was bad. He has had his tonsils removed and will be in oldtime form when the race starts.

Goldie Rapp is expected to come through and make good, but you never can tell what will happen. Goldie has been up before and flived, and although he was a star in the American Association last year, it must be remembered that Ollie O'Mara and Lena Blackburn also are stars as soon as they have

MeGraw has a fair pitching staff and expects to pitch his way to the pennant. True, he has a great ball club, but I don't think it is so good as

BROOKLYN, because of its pitchers, in given third position. Rabby B was handicapped because of the haldnuts this spring and that lept back the work in New Orleans. He has the same ball club as last year and should step out in front at the start of the race. His pitchers will keep the club up there for a month or so, but after that the team should stide.

### Cubs May Be "Dark Horse"

IF THE Chicago Cubs had a first baseman and a couple of good outfielders the team could be seriously considered. Alexander, Vaughn and Tyler are good for at least fifty victories, but they can't do all of the work. At

that, the Cubs might be the "dark horse" in the race. St. Louis has a great ball club, but it seems to get just so far and then stop. Last year the pitching was had and the defense ragged. There are many heavy clouters on the club and they should be just as formidable this year, but the pitching has not improved to any noticeable extent.

Boston gets sixth place because it is better than Cincinnati and the Phillies. Fred Mitchell has the makings of a good ball club if the pitching Cincinnati is all shot to pieces at this writing because of the holdouts. Eddie Roush has refused to sign unless he gets a big increase. Heinie Grob

has taken the same stand, and Larry Kopf says he can make more money in the automobile business. Jake Daubert took his time in reporting and was THEY say the Grab will not be missed because of Sammy Rokne.

A hut that's all bunk. Sammy is a great little but he doesn't compare with Heinie. The star third sacker has been through the mill, can stand the goff and in one of the hest in the business. This is Bohne's first appearance in the National League and he is still an experiment.

### Phillies Look Sad

KOPF also will be missed. Same three is a great fielder, but a terrible hitter. Foresect, who has replaced Bath at second, is errate and has not yet settled down. The pitchers are fair and the entching ditto. The Reds will easily bent the Phillies for the cellar.

The Phillies look very said. With Paulette ruled out by Judge Landis. the first base position is open. The club also is weak at second and third, the catchers will turn out. The outfield is exceptionally strong.

THE Phils are not in such a laid position after all. Wild Bill Donoran has everything to goin and nothing to lose, and perhaps some trades will be made to excendiben the clob. If he finishes as high as secreth it will be a great victory.
