### Make a Cream Sauce

By MRS. M. A. WILSON (Convertant: 1981, ... Mrs. M. A. Wilson, WHILE I was attending the semi-Economics Association in Atlantic City, N. J. and walking along the esplanade, N. J. anad walking the esplanade, N. J. anad walking the espl

Economics Association in Atlantic City, N. J., and walking along the esplanade, the sight of the majestic ocean, with its perpetually pounding and rolling waves, brought the thought to my mind that this would be a very opportune time for the housewives to take stock, as it were, the housewives to take stock, as it were, of the culinary part of the household. Maids are beginning to show a alight housewife should accept this as a sign to return to the preparation of the good and nutritious home-cooked foods. Away with the delicatessen meals

to lighten her burden. There are elec-trie washers and irons. It is now pos-sible to rise at 7 o'clock, prepare break-fast and still have the laundry on the ine by 10:30 a. m. This gives plenty of time to devote to other tasks. The rugs can be gone over daily with the rugcuum cleaner and the exposed sur-races of the woodwork can be gone over with mops and oiled dusters. House-the data and substant like play.

should be quite easy, if she will be -at any rate it's worth trying : willing to realize that, while many new Tie an apron around your waist-a

ream sauce. This sauce is used for cream soups, over certain vegetables, with baked fish, in au gratins and so on Years ago the bousewife bleaded four and butter, added hot milk and stirred the mixture until it was smooth and creamy. Today science tells her but bis is default.

and creamy. Today science tells her that this is detidedly wrong and that the butter burns very quickly at a low

But, perhaps I hear some one say that the butter doesn't burn when it is blended with the flour in the soup: perhaps not, but the semanation top;

How to Make Cream Sauce

Measure the milk in a clean sauce-pan and add the flour and with a wire spoon or fork dissolve the flour in the milk and then place on the stove. Stir constantly until the mixture reaches the boiling point. Reduce the heat and then cook slowly for five minutes to who momptly stored his walling wall

and nutritious home-cooked foods. Away with the delicatessen meals— nerturn to the elegant and dignified man-ner of entertaining one's friends in one's own home and then regale them with all the home delicacies. This thing of taking your friends to a hotel to dine surely leads the guest to believe the hostess is incapable of en-tertaining the guest at home. And as one thought follows another, then one is and to believe that madame is a poor housekeeper and is unwilling to exhibit ther lark of knowledge. The modern maid will find today that much has been done this last four years to lighten her burden. There are elec-tric washers and irons. It is now pos-

thenomenon, but the above drawing thows a new version of this garment faces of the woodwork can be gone over ith mops and oiled duaters. House-work, indeed, seems almost like play. Nor has the inventor slighted the kitchen equipment; there is the electric percolator, the toasters and chafing dish, which will surely lighten the preparation of meals. The adjustment of the returning maid challed by that I know says that she just sits and laughs at the modern girl's methods of capturing a husband. She declares that she can tell them a far quicker and more dependable method in which to ensare the ever-elusive male. Here is Mrs. Sallie Brown's method for husband catching of the difference of the seture of the returning maid the difference of the seture of the returning maid the difference of the seture of the returning maid the difference of the seture of the returning maid the difference of the seture of the

should be quite easy. It is the while many new willing to realize that, while many new inventions have lightened the burden of those who must look after the material discovered, and is now using, more ef-gener means of preparing food for the nutrition of the body. Physicians today know that much of the ills of the body are due to faulty nutrition: that people suffer from this is due to a large extent to poor and insanitary methods of caring for, storing and cooking the daily food which is needed for the bodily upkeep. For example, take the making of a rream sauce. This sauce is used for cream soups, over certain vegetables.

As the car swung around the curve and stopped thought he w ed the motorman almost was seeing double, for hethe butter burns very quickly at a low thought he was seeing double, for he-ration of the fatty particles. This side the white post stood a small boy and girl, as like as two peas in a pod. The conductor smarting from the sar-castic comments of an old lady whom he had carried past her street, changed his court is a stin as he swung them up

is blended with the flour in the soup: perhaps not, but the separation takes place just the same while boiling the milk. This causes the case in to become hard before it has had a chance to be detected a smile at his expense, the

iron entered his soul.

THIS GREEN BLOUSE TS FRINGED SMARTLY When they reached the gate three distracted relatives came rushing from as many directions, but Jack furned to rents.

the grandparents. "I found these twinsters having a joy you again, after what happened last night, but I really would like to hear your reasons for letting that cad Hast-ings take you to the dance after you had promised me. If it was just a way letting me down easy, why all right

"Well," answered that young person coldis, "when I saw you an hour before devoting your time to a beautiful stranger. I certainly didn't think you needed my company, and the roadster will not accommodate three "

"Daylight breaks over me," crice ck, "My sister arrived on the 5:30 Jack, "My sister arrived on the 5:30, and I was showing her about town a bit, and telling her about the finest girl in the world, who had so often wished to meet her. And you thought-oh. Alice Camden, I guess it's up to you o ask me in to supper and begin where ve left off before this big mistake. That night as the young adventurers

were being put to bed Alice led Jack to the foot of the stairs, where Betty's voice floated down—"and bless mamma and dady, and the new baby, and make Bobs a better boy tomorrow." There was a pause, fraught with great possibilities, then the prayer was con-cluded with a voice of Pharaisaical weetness:

"I'm going to be good, anyway, Lord, but you can help me a little if you feel
