What will your decision be The time of the year has come when you must

make a decision relative to your next winter's heating problems. Those who have not already made up their mind

to install the "HOT WAVE" modern, automatic method must do so within the next three months. When you place your order for the "HOT WAVE" you eliminate the buying of fuel during the summer

After a thorough consideration of what you gain by the "HOT WAVE" method in comparison with the old-fashioned way we are sure YOUR final decision will be a sound one.
