Since its defeat the bill has been amended to remove some of the oblectionable features which brought about the opposition to the measure. It retains the tax of 2 per cent of the present law, instead of making an increase. The tax on collateral inheritances is increased from 5 to 10 per

In its amended form the bill is expected to satisfy the opposition which developed against it and at the same time yield the amount of revenue which it was estimated the original measure would bring.
