Sixty Years of Carrying the Light in the Pathways of Commerce

An Old-Time Friendship or Fondness Never Loses Its Gloss

nor does it ever cease to do the heart good. How delightful it is to take the hand and look in the face of the little, well-doing girl, grown to womanhood, or the fine youth, with his honest manliness, every inch a gentleman. Stick to your old friends, old teachers, and to the classes where you learned how to do the most and the best in building your life. Don't neglect your earliest true friends.

A Clearaway of Women's Dresses and Suits at \$18

About two hundred odds and ends of good things have had prices lowered to take them out in a hurry—in fact \$18 means a saving on every suit or dress of \$7 to \$12. And that—to a great many women—more than compensates for the trouble of searching among broken sizes. The dresses are of silk jersey, wool jersey, satin taffeta and crepe de chine, in browns, navies and black, besides gray and some lighter, brighter colors. The suits are all of jersey cloth of desirable weight, cut in good styles, and pleasantly colored, being green and brown heather mixtures, Oxford, light blue and black.

Speaking of Fine Corsets

"The fashions of this Spring are more than ever suited to tall and slender women, and that is why the corset now holds an all-important place among feminine underwear. It should be known, however, that the corset has been successfully modified, for it now is perfectly supple and pleasant to wear and has now by its name in common with those instruments of torture which were the corsets of the past."

From Paris Edition of New York Herald

The latest shipment of the finest corsets we know—the Parisiennes—contains plenty of the favorite topless models, which have so much to do with the desired supple effect.

One of these is of pink coutil with free hip and but moderate length, \$8.50.

A second is well boned, and has a long skirt and at top and bottom both there is elastic, \$11.75.

A very long model which comes in sizes from 22 to 36 is \$16. Others of broche, batiste and silk batiste run up to \$34.50.

(Third Floor, Chestnut)

A Good Oxford Tie at a Moderate Price

"Where can I find a good, well-made oxford tie that will feel comfortable on the foot, look well, give good service, and cost only a moderate price?"

Many women are asking that question. We have the answer. It is a laced oxford of good workmanship and attractive lines, with comfortable 1 1/2-inch military heel, shapely narrow toe, perforated top, and substantial welted sole for street wear.

The woman who likes calfskin may have this oxford in black calfskin calf or a good shade of tan calf. For others it comes in soft black kidskin.

And the price is but \$8.50.

Fine Dining-Room and Bedroom Suits Were Never Offered in Such Choice at 40 Per Cent Less

When will there again be such an assortment of suits of this character at the same advantage in price as you will find in this Manufacturers' Readjustment Sale? That is a question not easy to answer.

But anybody acquainted with the furniture business can understand that at the prices now marked on them, suits of this quality are as remarkable and as sound an investment as there is in all the world of merchandise at the present time. The 40 per cent saving is from the new low prices.

Compared with the prices of December and January last the saving is really 50 per cent

(Fifth Floor, Chestnut)

On merchandise of this fine class a saving is doubly worth while.

It means buying something really and intrinsically superior at so much less than its just value. There is no doubt but that these are suits of a really and intrinsically superior kind.

They represent the finest work of the American cabinetmaker.

They are here to sell at 40 per cent less than market values because four of the best furniture manufacturers in America wanted a sudden outlet for their stocks-on-hand. This is the Sale that provides the outlet for them and the opportunity for you.
