

### TWO TRY TO ROB POLICEMAN, 1 SHOT

Bandit Dropped by Bullet in His Attempt to Flee

IS TAKEN TO HOSPITAL

An attempt by two highwaymen to hold up and rob Patrolman George Schuster, of the Trenton avenue and Dauphin streets station early yesterday morning proved disastrous to both.

The alleged highwaymen are Henry Pestich, of 10th and York streets, and Joseph Dalley, of 15th and York streets. Pestich is in St. Mary's Hospital suffering from a bullet wound in his side and Dalley is in jail.

Both men, according to the police, attacked Schuster when he was going home from the station house. Instead of obeying an order to throw up his hands, Schuster knocked Dalley down and held him. Pestich fled, but had gone but a few steps when he was brought to the ground by a bullet fired by the patrolman. Pestich was sent to the hospital and Dalley was held in \$500 bail for a further hearing.

William MacNelle, Thirteenth and Kater streets, was arrested yesterday charged with attempting to rob James Dettle, Ninth and Morris streets. MacNelle, according to police, approached Dettle at Ninth and Federal streets and knocked him down. The assault was witnessed by Patrolman McLeary. He captured MacNelle after a chase. MacNelle was held without bail by Magistrate Harrigan.

### DELAWARE WOMEN WIN

Ticket Backed by New Voters in Wilmington Suburb Elected

Wilmington, Del., April 11.—With the single exception of their nominee for Treasurer, the women of Elsmere, a suburb of this city, made a clean sweep in the election Saturday for town officers, that being the first time Delaware's new voters have taken an active part in politics.

Two Town Commissioners, an Assessor, an Alderman and a Treasurer were chosen. The Commissioners elected were William B. Johnson and James T. Warren. The man chosen for Alderman is Oakley Griffith; for Assessor, Benjamin E. Harrar, and the winner in the contest for Treasurer was Penrose S. Forman.

Forman received 204 votes, while Charles Dryden, the women's candidate, received 105, or just six votes less than enough to win.

**Tin Roofs and Fires.**

WE TOLD you that in 1918 the nation paid \$567 a minute for fire losses—but we forgot to add \$1333 a minute more that it pays for insurance, making \$1900 a minute, or nearly \$3,000,000 a day, for fire loss and insurance.

And yet some people think that single or gravel roofs are cheaper than tin!

If tin roofs were put on all America's buildings tomorrow, the total saving in 1921 would feed the starving children of Europe.

Have you any roofs that will burn? Ask your insurance man how much you would save in a year if they were all tin.

Then ask a roofer what it will cost to put on roofs of NU-DURA-TIN, the standard tin, and see if the saving in premium alone will not pay the interest on the cost of the new roof.

Are children cheaper than tin roofs?

### What is Cloisonne?

This question has been asked daily during the great Vantine Sale. It is commonly known as Chinese and Japanese enamel-work. And its name is derived from the French word cloison—meaning cell. The "cells" are made of fine strips of metal gilded edgewise, completely outlining the decorative design upon vase or bowl or lamp-base.

Into the cloisons, bright-color pigment enamel is forced and fired, fired again and again; then ground down and polished to jewel-like brilliancy.

Over 2000 years ago, the Japanese invented the process. The Chinese learned the art from them. But the secret has been jealously guarded from the rest of the world.
