"Be sure that you take your umbrella, Myra." Mrs. Bennett had come softly into her daughter's room. Myra Bennett stood before her mir-

ror, deftly adjusting her new spring hat-a chic flame-colored toque. Her black dress of soft clinging stuff had a touch of flame-yellow at the neck, wrists and girdle, and from her young, athletic-looking shoulders it bung in simple, girlish lines.

"Yes, I'll take an umbrella," she assured her mother.

And be sure you get something good for your luncheon, Myra," her mother cautioned. "You—you haven't eaten much breakfast—a cup of coffee is noth-ing for a girl to work on. You—..." "Don't you worry, mother," the girl broke in as she fumbled in her beaded "And be sure you get something good

## A complete labora-fory system of test-ing ingredients guarntees absolute pur-ty in Abbotts Ice

WHEN a Philadelphian visits us for the first time, he invariably exclaims, "I had no idea you people had such a wonderful place!"

Few people realize how large a modern ice cream plant must be. Few know that the Abbotts plant is one of the most complete and finest in America.

In this great building are vast storerooms filled with containers of crushed fruits for flavoring-giant glass-lined vats that prepare the "cream" for freezingfreezing rooms like caves in the polar regions, 5 degrees below zero all year

round-a complete plant that makes 125 tons of ice every 24 hours-a storehouse on the second floor that holds 3500 tons of ice-a completely-equipped shop where we do all our own painting and carpentry. And across the street, a large garage to house the fleet of Abbotts motor trucks that daily distribute Abbotts Ice Cream to dealers throughout this city and its suburbs.

We are proud of our home. It is evidence of our success as makers of superior ice cream. It is proof beyond question that Abbotts Ice Cream has won a front-rank place in the estimation of Philadelphians.
