# The Call Tomorrow Will Be for New Spring Outfittings

**Three Amateur Fishermen and George Roberts, Their Guide, Made It Possible to Get Two-fifths of a Ton of Big Fish on a Wednesday**

all acceptable as food by the human family.

Scores of heavy amber jacks, none under twenty and some weighing up to thirty-five pounds, clamored to be taken in on rod and reel and trolling lines.

Yesterday we fished off the Government Quarantine Station opposite Egmont Key, for mackerel, of which there were plenty to be had, with little shiners for bait, with lines upon long bamboo poles.

There were a dozen fishing-boats around, and a score of handsome old sunburned men drinking in the healthful air, pulling in the fish with sunbrowned hands.

Florida air at this time of the year is a lot better than medicine and doctors' prescriptions.

A few hours for the transfer puts one into the sunshine and air of June.

[Signed] *John Wanamaker*  
April 15, 1921.

**To a Man's Judgment About His New Suit**

There is no reason why a man should buy a Spring suit that is less than 100 per cent fine, except the reason be in the man himself.

Although they may not be found everywhere, still there is no shortage of suits that come up to that description and this is one store that has them in full selection.

What does "100 per cent fine" mean in a man's suit of clothes?

To us it means fabrics 100 per cent wool, fashion 100 per cent correct, tailoring 100 per cent excellent. It means what "sterling" means in silver.

So far as it is humanly possible to put these things into men's suits the suits shown in the Wanamaker Men's Clothing Store have them.

Prices, \$32 to \$65.

Youth's models, \$28 to \$40.

(Third Floor, Market)
