It is most beautiful on a bright morning in late winter or early spring, when the sky is clear and the morning sun illuminates every one of its stately pinnacles; but on a cold, dull day, when it is cloudy, and it rears up in all its strength and majesty, towering heavenward in its skyey gravitation, it is just as impressive, more so perhaps, when it is misty and you can hardly see its outlines, and it seems to reach to the firmaments themselves.

"T. B. P." on Modern Man

Dear Cynthia—"Prudence" hath indeed introduced a new and interesting subject in "The Modern Man." Methinks 'its a subject on which volumes could be written—and she asks that he be discussed in a single letter—almost an impossibility. Let's limit it a trifle: The really modern man in the full sense of the word is the younger man, the more active chap. Upon him I would fain hold forth for a few moments. Not that it is my intention to slight the older man of the generation which will soon be a memory. Far from it. honor them too much for that; but 'tis the younger who has a greater responsibility upon his shoulders.
