Adventures With a Purse

OH WHAT is a bargain! I have found a shop that is having a sale of soft, lovely long white kid gloves. I don't know just how long they are in manner of buttons, but they will extend farther up than your elbow. They also can be had in black with white stitching. Either style is priced at \$3.95. Isn't that a remarkable price?

For little people, those who have not yet attained the age of as much as six years, come cunning white corduroy frocks for spring, as snowy white and soft as they can be. They come in a number of styles, including some belted models, and are priced according to the style. Prices range from \$4.50 to \$7.50, and yes, I saw one for \$10. But \$4.50 for a spring coat is a very fair price. The nice part about the material is that it can be washed, you know.

If you have use for a fancy box in which to keep handkerchiefs or ribbons or other odds and ends, stop and see the Japanese boxes, which cost fifty cents. They are covered with a gold-finished material resembling the lovely cloth of gold and are decorated with painted Japanese figures.

For names of shops address Woman's Page Editor or phone Walnut or Main 3000.

With Left-Over Material

Have you a piece of voile, of organdie or of any other fabric which is left over from a summer dress you are making? And are you wishing you could find a way to use it? Well, here is one for you which you are going to like. Turn that useless bit into a decidedly useful little jacket-like sort of vest. The material which you have will probably not be long enough to cut into a large square and fold over, so cut two pieces and join them at the shoulders with cream-colored footings. Make the neck either square or round, whichever is most becoming, and put a neat little buttoned bow at the waist. Cut the way around with the cuffs stiff and caught at each side with tiny twined ribbon bows so that arm holes are formed. A rosette of the ribbon hides itself among the folds of net about the throat, too.

The Question Corner

Today's Inquiries

- For what important reason has the "Houseswives' Chamber of Commerce" launched a campaign to induce American women to adopt cotton goods for dress material?
- How can the before-lack's white linen dress be made into a pretty and up-to-date frock?
- If hem-titched tan napkins have become torn around the edges, what can be done to restore their appearance?
- In what way can linoleum be kept fresh-looking?
- What is used in place of maiden-hair fern to give a corsage bouquet a charmingly different touch?
- When taking a voice, how can it be prevented from sticking to the bottom of the pan as it is being removed?

Yesterday's Inquiries

- Some novel and different-looking artificial flowers are made of what bright colors?
- A gingham dress for the little girl that has the smartness of the really grown-up person's frock is made of striped material, with the skirt cut into before-lack's shape. It joins the waist, and a tiny Peter Pan collar and black bow at the waist.
- Wicker forms a basket which, lined with flowered muslin and set on a tripod arrangement, makes a pretty and inexpensive substitute for the wooden sewing cabinet.
- Double place cards, which have the names of the engaged couple written on the inside, form a clever way of announcing an engagement party.
- An old strap of velvet, stuffed with cotton, makes a handy arrangement for brushing serge or other wool materials.
- Gay embroidered buttonholes are a novel touch of adornment found on a dainty new pair of mules.
