You start in a good looking navy blue tricotine suit with facings of beige and blue silk and a blouse that matches the facing. You unfasten the skirt and emerge in a striped skirt with a plain coat. Maybe Argus, who so wisely condemns the efforts of the gifted Mr. McWizzburgh, can give me a satisfactory

He Pays Attention to Others

Dear Cynthia—About two years ago! the a young boy through my girl friends. About Christmas time he began taking me about to entertainments and social gatherings. My mother liked this boy and so did I, very much.

Two weeks ago another friend of mine began to attract this attention. He soun forgot me, and since we have just been friends in a distant way.

Now, dear Cynthia, please tell me what to do, I wish to win back his attention, and I cannot think of a way to do so.

There is not anything to do, dear, if some one else attracts the young man more than you do. Always be your natural self with film, and if he has say real appreciation of you he will realize your worth and perhaps pay more attention to you. You have no special hold on him, such as an engaged girl would have, and he is, therefore, free to pay attention to whom he will.

Dear Cynthia—This is in answer to Mister 24's" letter, asking the "girls" how it is done. Mr. 24, in the first place, are you tidy?

Mr. 24, in the first place, are you tidy? In other words, do you make a neat appearance, when trying to make acquaintance with a girl?

I will give you my own experience (as a young lady) that might help you to make a better impression with the opposite sex. A young man escorted me home from a party one night, and he evidently liked my company, so he asked me to go to the theatre with him the following week. I consented to go—but I was sorry when I met him the next time, because he certainly needed a "shave" and, if the young man could not afford to have his trousers pressed, he might have pressed them himself—because they needed it. You know, Mr. 24, that a girl hates to be seen with an untidy fellow—no matter how polite he is. Again, the certain young man, to whom I refer, used an awful lot of "slang." Every other word was a slang word.

Study your girl-and if she is dainty and refined, cultivate a refined nature yourself if she is neat and attractive, make yourself so. Never use slang when speaking to her, and, or well— you know the rest.

Even before she was married Mrs. Marie Owen always had a keen interest in everything relating to the historical particularly that which pertained to the history of her own state. Alabama After particularly that which pertained to the history of her own state. Alabama After her marriage this interest heightened materially because of the fact that her husband was the founder and director of the State Department of Archives and History of Alabama, a man who had dedicated his life to the collection of documents about the state and the compiling of an exhaustive historical treatise of this subject.

The possibility that she might some time be called upon to capitalize this interest in the events of other days never entered Mrs. Owen's mind for, as she often said, she felt that one of the first duties of a wife was to participate in her husband's work as far as possible and, by alding him, to complete the true companionship of marriage.
