Not Tin, but Armor Plate

| DON'T call that tinit's more like armor ≣ plate!" said a guest at the recent Nu-Dura-Tin dinner, at which the bills of fare were mounted on plates of this famous roofing-tin.

If you handle a piece of Nu-Dura-Tin it will give a new meaning to the old word "ein." Instead of a thin, flimsy, crackling sheet, it is a heavy. strons substantial plate of metal, heavily coated, with what looks like old silver. The steel has enough copper in it to make it soft, tough and easy to "work" in putting on a roof.

Keep it painted, and it will ast until your great-granddaughter's wedding.

Any roofer can get Nu-Dura-Tin from the supply houses. Specify it in the order and be safe.
