

WALSH CHAMPIONS MAIMED VETERANS

Says Agencies Aiding Soldiers "Failed Miserably" in Joint Effort

BILL WOULD CUT 'RED TAPE'

By the Associated Press Washington, April 27.—Treatment of former soldiers in the matters of hospital care, compensation, vocational training and insurance was criticized severely today by Senator Walsh, of Massachusetts, who introduced a string of bills to remedy conditions under which the war veterans have complained.

Senator Walsh announced "the credit" some of the conditions in administering soldiers' relief laws. In many soldier hospitals, he declared, there is "a lack of sanitary accommodations, cleanliness, discipline and life," as well as inadequate medical care. Insurance benefits are curtailed, the Massachusetts senator said, and vocational training denied.

The three principal agencies of aid after rehabilitation—the war risk insurance bureau, the federal board for vocational education and the public health service—failed miserably in an uncoordinated effort, according to Senator Walsh.

The Walsh bill would provide a comprehensive program of legislation, including:

Repeal of the law forbidding payment of compensation to incapacitated ex-service men unless their disability occurred within one year after discharge.

Repeal of the law limiting filing of claims to five years after the armistice.

Repeal of the law requiring veterans to prove that tuberculosis or certain other ailments were caused by their service.

Payment of all war risk insurance policies in three installments to beneficiaries, instead of in 240 monthly payments.

Permitting reinstatement without physical examination of all lapsed policies upon payment of two months' premiums.

A law for payment of unpaid policies of men dying since the armistice after deduction of premiums due at time of death.

De-centralization of the bureau of war risk insurance, giving regional officials direct authority to accept or reject compensation claims without reference to Washington.

An inquiry by the Senate into hospital conditions, where service men are receiving treatment.

Abolishment of the bureau of hospital service men in hospitals on a per capita payment basis, to be replaced by a division of army government hospitals and a division of hospital care.

Elimination of army government hospitals and a division of hospital care.

During the war, the government hospitals and a division of hospital care.

SHOE PRICES DOWN TO PRE-WAR LEVEL

Mr. Hill, of the Royal Boot Shops, Says High Prices Are Unnecessary

MEN'S AND WOMEN'S SHOES LOWER

"People who pay exorbitant prices for shoes today should blame nobody but themselves," said Mr. Hill, "It is true that many stores are laboring under enormous ground-floor rents and endeavoring to dispose of shoe-bought at the high prices that prevailed last fall, but in the Royal Boot Shops these conditions do not obtain. "Shoes, and I mean the very best styles for both men and women, can be bought today at prices that are lower than they have been since 1911, and we are buying at today's prices. This, and the very moderate rent that we pay for our up-to-date location at 1212 Chestnut street, means an actual saving of at least three dollars a pair based on the prices that are being asked for the same grades of footwear in other downtown and uptown shoe stores. "I have heard it said that women were nothing but price-worshippers before the first of last year, but I find that they are not willing to pay a fancy price when they can save here and get the same value and quality for several dollars less, particularly as I sell every pair with a money-back-if-not-satisfied guarantee. "Yes, business is very good—better than the first of last year, and simply because we have what gentlemen of the right price."

Mannish Tweed \$10

1000 Women's and Misses' Smart Summer Suits
