## Letters to the Editor

### Bonus by Overwhelming Majority

The Editor of the Evening Public Ledger:  
Sir—In claiming to be a moderate "reform" paper, the Evening Public Ledger is in the habit of those whom "John P. Mitchell" and "John P. Mitchell" call "reformers." It is a pity that the paper is not more moderate in its views on the bonus. It is a pity that the paper is not more moderate in its views on the bonus. It is a pity that the paper is not more moderate in its views on the bonus.

### Letters to the Editor should be as brief and to the point as possible.

Letters to the Editor should be as brief and to the point as possible. Avoiding anything that would open a denominational or sectarian discussion. No attention will be paid to anonymous letters. Names and addresses must be signed in an evidence of good faith, although names will not be printed if request is made that they be omitted. The publication of a letter is not to be taken as an endorsement of its views by this paper. Communications will not be returned unless accompanied by postage, nor will manuscript be saved.

### Manufacturing of Ice

The Washington estate in Virginia was first in possession of George Washington's elder brother who had served for some time under Admiral Vernon. When he left the English may be showed his regard for his old commander by naming his country place in his honor.

### Semicolon Makes Difference

The Editor of the Evening Public Ledger:  
Sir—Please do not how you are manufacturing for domestic use and for cold storage houses.

### Wants the Name of the Author

The Editor of the Evening Public Ledger:  
Sir—Can any one tell me who wrote the following verses? I cut them from a newspaper some years ago.

### "Swinging in the Lane"

The Editor of the Evening Public Ledger:  
Sir—Please print in your interesting People's Forum the following verses in the Lane.

### She stayed away from school next day

The truth is she was afraid—  
She'd gone with the red city chap  
A-swinging in the lane.

### Not Impressed by Short Dresses

The Editor of the Evening Public Ledger:  
Sir—I was interested in reading in the People's Forum recently the views of a correspondent upon the extremely short dresses worn by the girls.

### Submitted to Readers

The Editor of the Evening Public Ledger:  
Sir—Kindly submit, where permitted, the following problem to your readers, and oblige: At what time between 3 and 3:30 are the hands of the clock at right angles?

### A Hymn and Poem

The Editor of the Evening Public Ledger:  
Sir—There is an old hymn I am desirous of securing, which I am unable to find in any hymn book.

### ATCO Paint

Absolutely Best—Gallon, \$2.35  
Best Enamels—Gallon, 3.75  
Window Shades (3x4 1/2) .55  
Wall Paper (single roll) .66  
A. F. DUDLEY, 52 N. 2nd

### Questions Answered

Origin of "Mount Vernon"  
The Editor of the Evening Public Ledger:  
Sir—How did Washington's home in Virginia come to be called Mount Vernon?

### Submitted to Readers

**EVERSHARP**  
EVERYBODY makes a mistake once in a while; that's why we put an eraser on Eversharp.

MADE BY THE WAHL COMPANY, CHICAGO  
PRICES \$1 TO \$65

**Scripps-Booth**

In the new Scripps-Booth Roadster moderate weight construction has been developed to a high state of perfection.

The six-cylinder valve-in-head motor develops a super-abundance of smooth economical power. The frame is strongest and widest in points where it must bear the greatest strain. A 115" wheel-base provides for a short turning radius and coupled with the wide flexible springs and long spring suspension ensures the maximum of comfort.

This scientific design and the even distribution of weight make not only for road-steadiness without excessive bulk, but for the economical operative cost that is such a pronounced characteristic of Scripps-Booth Motor Cars.

**No Cost For a ten-day test**

Simply mail the coupon. Compare your teeth now with your teeth in ten days. See the added luster—mark how differently they feel. Then decide if you want such effects continued. And if all in your home should have them. Ten days will show you what this new way means.

**The New Laws on teeth cleaning—five of them**

The old ways of teeth cleaning have proved inadequate. Nearly everybody knows that Millions find that well-brushed teeth discolor and decay.

Tooth troubles have been constantly increasing. Some have grown alarming in extent. Very few escape them.

So dental science, after diligent research, has set down some new laws. Millions now obey them, largely by dental advice. This is to urge a ten-day test, so you may know what these new factors mean.

1—Combat the film  
The first new law is, Combat the film. You can feel it now—a viscous film. It clings to teeth, gets between the teeth and stays.

Old methods do not effectively combat it. Much of the film is left. Then night and day it may do ceaseless damage. Most tooth troubles are now traced to film.

It is film-coats that discolor, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of other serious troubles, local and internal.

Two effective methods  
Science has now found two effective film combatants. High authorities have amply proved them. Leading dentists everywhere now advise their daily use.

These methods are embodied in a dentifrice called Pepsodent. Every application

Results are seen in every circle—seen in glistering teeth. Women's teeth are beautified. Men's teeth show less smoke stains—stains which abide in film. Children's teeth are protected as never before.

The benefits are quickly apparent. They are delightful and easy to obtain. The book we send makes them readily understood.

Every home should therefore make this test. Old methods are clearly inadequate. Modern authorities have proved them wrong. Learn how this new way differs.

It stimulates the salivary flow—Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise cling and form acid.

It multiplies the alkalinity of the saliva. That is Nature's neutralizer for the acids which cause tooth decay.

A tooth paste should twice daily serve to multiply these teeth-protecting forces. And Pepsodent complies with those new laws.

Millions now comply  
Millions of people are now using Pepsodent. At least twice daily they get these five effects. It will mean, in good opinion, a new dental era.

Watch the changes  
Mail the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects.

Judge by what you see and feel. Read the reasons in the book we send. Then decide for yourself between the old ways and the new.

Act today, for every hour these enemies may be damaging your teeth. Cut out the coupon now.

**Pepsodent**  
REG. U. S. PAT. OFF.  
The New-Day Dentifrice

Every-Day Essentials  
1—Remove the film.  
2—Polish teeth highly.  
3—Increase the saliva.  
4—Multiply its starch digestant.
