The illness from which he died de-veloped only in January and he went out to Hot Sorings several weeks ago, hoping that the change of air and cli-mate would be beneficial. He seemed to be improving under the treatment, but last Monday he had a relapse and though he rallied from the attack and fought valiantly for life, died late on Saturday night. Saturday night, Dr. and Mrs. Deaver were tele-

Dr. and Mrs. Deaver were tele-graphed for when the last attack came, and they reached Hot Springs a couple of days before the end. I have heard such good things about John Deaver that, though I did not know him per-sonally. I admired his fineness greatly. I heard one man say of him the other day: "I never heard John say a criti-day: unkind thing of any one. If he day: "I never heard Journ say a criti-cal or unkind thing of any one. If he could not say good of a person he did not say anything." And in these days when a person's character is apt to be torn into shreds by idle tougues, that was. I consider, a great tribute to the fue fellow John B. Deaver, Jr., was.

SEEM to be thinking of sad things. and yet you cannot but be saddened when you hear of the death of so many when you hear of the death of so many young people, even though you feel they are saved much in the way of suffering in life. But I am so sorry for Mr. and Mrs. Hamilton Colket, whose little boy died on Friday. I have not heard the particulars of his death, but it could not have been after a very long illness, as I saw him only a few Sundays ago, going out of church with his nurse, looking so cute in his little light over-coat and kid gloves. He was a charm-

Cantilever Shoes are comfortable, easy, the first time you put them on! No need to "break them in" slowly and painfully. No need to suffer till the newness wears off. In Cantilevers your foot is not compelled to assume the shape of a For the Cantilever Shoe is shoe. shaped like the human foot. It is built on the lines of good taste-graceful, sensible. It is made for perfect comfort.

The foot has freedom to arch and bend, to move and exercise, unhampered. The shank of a Canti-lever is not stiff and unyielding. It flexes with the action of the foot.

The natural inner sole line and the well-set heel combine to encourage correct posture. Ordinary shoes, which twist the toes outward, cause all the weight to fall on the inner side of the arch, its weakest point. But Cantilevers distribute the weight But Cantilevers distribute the weight properly; they correct and prevent flat foot. They enable you to walk or stand with less fatigue. And they are good looking.
