BUENOS AIRES HIT BY MARINE STRIKE

Port Workers Plan to Stay Out Until "Closed Shop" Is Assured

BEGAN WITH BOYCOTT

Buenos Aires, May 10. — The port workers of Buenos Aires struck yesterday. They notified the government they would not return to work until assurances had been given that the non-union labor which the Labor Protective Association of Employers had announced it intended using to carry on the port operations would not be permitted to work.

William H. Robertson, American Consul General here, commenting on dispatches from Washington to the effect that his refusal to aid five Chilean members of the crew of the American steamer Martha Washington to return to their country was the cause of the port workers' boycott of the Martha Washington, declared the statements were based on a misconception of facts.

Mr. Robertson said the boycott began when the Munson Line refused to accede to the demands of the Port Workers' Union that the firemen on the Martha Washington be paid off, discharged and repatriated because of alleged ill treatment. He added that after the Munson Line, charterers of the steamer, and the local Shipping Board authorities refused the demands of the union to the consulate he refused to receive the delegates of the union who called on him to press their demands and the boycott continued.

The Consul General added that he had been ready to listen to any complaints on grounds for discharge presented by the firemen themselves, as provided for by the maritime laws, but that the firemen had refused to make any complaints before him or to accept investigation by the Consulate. On the other hand, they had sought intervention by a foreign labor union, with which, under American law, he had no authority to deal.

Airships Puzzle City Planners

Pittsburgh, May 10.—City planners should be able to forecast at least twenty-five years ahead in order to provide for changes the airship will make in commerce, said John Ihlander, manager of the City Development Department of the United States Chamber of Commerce, addressing the thirtieth national conference on city planning yesterday.

Lebanon Man Kills Himself

Lebanon, Pa., May 10.—The body of Thomas Dissinger, of this city, was found yesterday beside the tracks of the Cornwall Railroad, two miles south of Lebanon. A bullet wound in the temple from a revolver nearby proved he had taken his own life. He was sixty years old and a widower with eight children.

Soviet Officials Shifted

Stockholm, May 10.—Maxim Litvinov, chief of the Russian Soviet legations abroad, whose headquarters have been Reval, is to succeed M. Karakhan in the foreign ministry. Karakhan has been appointed Soviet representative in Warsaw. M. Sabanin will succeed Litvinov at Reval.

AMERICAN STORES CO.

A New Route to the Orient

Combining all-American rail and steamship accommodations of the first class.

Over the shortest route across the Pacific, by the new Admiral Line fleet from Seattle-Tacoma, to Yokohama, Kobe, Shanghai, Hong Kong and Manila.

Northern Pacific Railway

To Seattle and Tacoma and

Admiral Line Steamers

Flying the American Flag

offer an ideal combination of travel for either business or pleasure.

The Admiral Line Steamers comprise a fleet of new and magnificent passenger vessels, offering unexcelled passenger service. Accommodations include palatial lounges, music rooms, palm-garden verandas, library and writing rooms, ball room, glass enclosed promenades, swimming tanks; four room suites, many twin bed cabins with connecting shower or tub baths, as well as standard staterooms.

The Northern Pacific traverses the most interesting scenic and historic route of the Northwest.

Roll Call

of White Truck Fleets In Actual Service

EACH year the Annual Roll Call of White Truck Fleets in actual service becomes more firmly established as an institution in the motor truck industry.

The 1921 Roll Call marks the twentieth anniversary of this company's entry into the automotive field, and its eleventh year as a manufacturer of gasoline trucks.

The figures showing yearly growth of White Fleets of *ten or more* trucks are impressive evidence of their ability to do the most work for the least money. They are the result of "Twenty Years of Knowing How."
