DISCUSS HOUSE FINANCE

Co-operative Building Discussed. Richard Spillane Speaks

Co-operative League of America. Dr. Warbasse stated that one-third of the people of Europe were members of co-operative societies and that "we can do it in this country if we catch the vision and get away from the old order of doing things for the sake of profit." On account of bad housing conditions more strikes start in homes than in factories, said Richard Spilland, who spoke on "Business Financing."

Edward T. Hartman spoke on "Philanthropic Financing." George W. Norris presided.

Could you tip your file like this?

TT is only a little thing—the safety I latch that keeps a "Y and E" Fire-Wall File shut tight—yet this little latch may some day save your business.

Without this latch, the steel-plusasbestos walls of a Fire-Wall File would be little or no protection. With it, these files have at least double the protection of an ordinary steel file.

You owe it to yourself to investigate

Fire-Wall Filing. Cabinets

Ask us to show you these four valuable "Y and E" features:

An automatic safety latch prevents drawers from opening accidentally. No other file has this latch.

Real Roller Bearings make every drawer open or close at a touch.

Water or dust can't get in. When closed, the drawer fits tightly against an inner flange.
