Edison Was Right— AND WRONG

But whether his list of examination questions is fair or not for the average man - tomorrow's Public Ledger will have an entirely different list of puzzling questions, and each one is one whose answer you ought to know-but, do you?

Most of these are actual questions from our schools—a composite list made up from high school and preparatory examination papers. They are not trick questions in the sense that they can be looked up in a reference volume more easily than retained in the memory. Many of them are answered by ordinary common sense and the average intelligence, and about every one you will say-"Well, I ought to know that!"

Don't fail to get the Public Ledger tomorrow and look for these puzzles.
