# And Now for Quick and Complete Outfitting for the Holiday!

## Tyrants Are Almost Sure to Make Rebels

Inherited power, pride of birth, long and unquestioned use of patronage and wealth, naturally breed a species and strength of rulership that sooner or later meets with resistance of nations, parties and legislative bodies, hurtful to the human race.

There is a danger always in going too far in exercising an arbitrary despotic iron hand, turning on the screws by stress of circumstances with taxations and burdens that lead the people to

"kick over the traces"

Go slowly and softly these days.

*John Wanamaker*
