It has been called the last classic of the sailing ship. The author a sea captain, has furnished an additional chapter and a special introduction.

The heroine of Mrs. J. E. Buckrose's "The House With the Golden Windows" (George H. A Book That Has Survived

The author of the "Well-considered Garden" has written another delightful book on her hobby. The New York Sun says: "This story must rank with his very best work." The New York Times says: "Its characters are real. Its scenes are real. One smells the fragrance of Valencian flowers and the sait sea. The story has the breathless speed, the vigor and the sweep and rush of Blasco Ibanes at his best."

The World, New York, calls it "a vivid and vital tale setting forth with effective simplicity the life, passion, vice, virtue, strength and weakness that find place among the fisher folk of Valencia."

The Brooklyn Eagle says: 'For literary flavor and genuine fidelity to art. • it probably surpasses "The Four Horsemen' and 'Mare Nostrum.' For interest it is their equal. What more can one ask?"

This book is for the many friends of flowers who live in Nantucket, for others who have felt the lure of this happy hunting ground; for all who find pleasure in the distinct and varied flora of that unique island.

From early times the island people have shown a continued interest in their wild flowers, and their devotion is equaled by the enthusiasm of visitors. In this book, both author and illustrator describe with all possible accuracy and not too many technicalities, the representative trees and flowers.

Of WILL IRWIN'S remarkable book "THE NEXT WAR"

Dr. FRANK CRANE says: "Unreservedly I place it as the best book in the world right now for every man and woman in America to read, including the President and the Senate.

If I had a million dollars I would see that every teacher, preacher and legislator in the United States owned this volume. I would have it taught in every public school. For, like you, I have read much of war and am callous. But this book staggers my imagination, it sweeps away the last cowardly subterfuge of my intellect, it grips my heart in its amazing revelation. If you buy no other book, and read no other book this year, buy and read "The Next War," by Will Irwin."
