SETTLEMENT SEEN N SCHOOL SALARIES

Special Committee Now Engaged Making Adjustments to Cover Differences

BROOME ISSUES STATEMENT

The salary question among employes of the public school system, which last year threatened to split the Board of Education and the teaching force into Education and the teacher's grievances were satisfied at a meeting of the board last October, there has been considerable discontent among other employes of the system since that time ever inequalities that existed.

A special committee of the board, consisting of Dimner Beeber, Joseph W. Catherine and Harry T. Stoddart, Superintendent Broome, William Dick, Superintendent Broome, and Hast month making adjustments to suit the requirements of the Finegan Salary Act recently passed by the Legislature, raising the salaries of teachers, and eliminating inequalities in the salary schedule for the entire force, including those employed in supervisory and clerical positions.

It is believed that the revisions when The salary question among employee

It is believed that the revisions when completed will dispose of a problem that has never before been definitely settled in the public school system.

Dr. Broome stated today he expected to see the whole question settled in time to permit the new schedules going into effect at the beginning of the new

into effect at the beginning of the new school term in September.
"We are hoping," said Dr. Broome, "to achieve a general and final revision of the salary schedule, so that the treublesome question of salaries may be definitely settled. Working in conjunction with members of the board, the of superintendence and other depart-ments, we are striving for a revision covering all branches of the school

it is the hope of the superintendent of schools that the schedule will be worked out logically with due reference to the proper relation between the several branches of the teaching and service.

Enorts of the Fire Department to lay hose were stopped by a crowd of armed white men and the department returned to its station.
