May Give Scholarships
In the event there has been no signal service to warrant the award, Dr. Keen said the \$10,000 will be devoted to or toward free scholarships in tentiversities and colleges for boys and side in the Philadelphia district.

The recipient of the award will not have to live in Philadelphia, according to his statement. Under the decision of the Board of Trustees, he or she must simply be identified with Philadelphia interests.

The scope of the achievement for which the award will be made is almost unlimited. The only definition determined upon is that the net or work must be far-reaching in effect and must be of service to the general public.

It is the hope of the founder that the man or woman who devotes his or her time and energies to service rather than to selfish interests will be rewarded in spite of the smallness of the pay they receive while doing that savice, and the sole object of the award is to stimulate service.

"Mr. Bok's great gift, it seems to
me, is very much more than a gift to
greater Philadelphia. It is a gift to
education the world over. This is true ecause, so far as I know, this is the least gift of this sort which recognizes at one and the same time the finished achievement and the means by which men can be trained to achieve. The Nobel prize and other prizes of this sort Nobel prize and other prizes of this sort have been given for specific achievements and to recognize men who have achieved. These prizes do not contain provisions for providing the means—education—by which men may attain that knowledge and use of knowledge by which alone achievement may come. "On the other hand, the Cecil Rhodes Scholarships and other gifts of that kind provided for the training of men with the purpose that men so trained may make permanent advances in the world's progress, then do not provide for the achievement when accomplished. This gift of Mr. Bok's recognizes and combines both these ideas as it may be given at the control of the contro combines both these ideas as it may be given, either for the achievement or for the means by which men may be trained "It is interesting to note how com-etely the spirit of this gift is in the

MAY SET TIME LIMIT

borers' Eligibility Lists The Civil Service Commission today considered a proposal to set a time limit to eligibility lists for laborers and to limit the number of men to be appointed from a single list. A public hearing was held in Room 496. City Hall. Clinton Rogers Woodruff pre-

Hall. Clinton Rogers Woodrug presiding.

Albert Smith Faught, secretary of
the Pennsylvania Civil Service Reform
Association, some time ago brought to
notice of the commission the fact that
under present rules all a man needed
for appointment as a laborer in the city
service was to get on the eligible list,
without regard to standing. Mr. Faught
suggested that a definite number of eligibles be named in the rules from whom
appointees must be selected and urged
also that the lists be made good for a
less time than the two years under the
present rule.
