Wood Finds Sentiment for Independence With U. S. Protectorate

By the Associated Press

Manila, June 1.—Major General
Wood and W. Cameron Forbes, former
governor general of the Philippines, sent
to the islands by President Harding to
investigate conditions, returned yesterday after traveling eighteen days by
train, automobile, launch, horseback
and steamer, through the northern section of Luzon Island.

The mission held scores of public
meetings and private conferences, listening to the views of the natives regarding independence for the Philippines, and examining local financial affairs, sanitation, schools, public works,
the haministration of justice and agricultural conditions.

cultural conditions.

cultural conditions.

After visiting the central provinces of Luxon Island the mission separated. General Wood traveled through the northern Pacific provinces, while Mr. Forbes went through the mountainous provinces among the non-Christian tribes. The parties united again on the west coast of Luzon.

Both commissioners said that their soloupus everywhere had been marked. sojourne everywhere had been marked by the friendliest feelings of the natives for the Americans. At the public hear-ings, they said virtually all of the

speakers among the Christian popula-tion favored independence for the islands, with a protectorate by the United States.

Only a few speakers advocated complete separation, while occasionally

Only a few speakers advocated complete separation, while occasionally speakers opposed independence in any form at present.

After spending a week in Manila to study the mass of data collected in the journey through the northern provinces the mission will begin a trip through southern Luzon.

THE price of the LAFAYETTE must respond to changes in underlying economic conditions. . . . But the quality of the LAFAYETTE is in our own keeping, and The service, resit is securely fixed by our purpose to build the very finest car that we can.

Quietly, surely and upon its own merit, where the LAF AVETTE has taken its place among the fine cars of the world. Unlike most

care, it has never been on probation. In engineering, metallurgy and manufacturing precision it incorporates and improves upon the best standard practice.

Owners repeatedly tell us that it is "the car of the future" in the fine car field, and this opinion seems to gain insistence with every new LAFAYETTE car on the streets.

Not until you have driven a LAFAYETTE thousands of miles will you realize the long usefulness and brilliant performance which it yields. . . . It has the economy of all good things.

Fresh Stocks of Handsome Furniture at the Best Values in Years

I From the benches of our own, and the foremost factories of the country, Furniture in an almost endless stream has been flowing on our sales floors for weeks. We not only have the room for these immense stocks—the result of our loss-taking clearances in the tail end of winter-but we recognize in the changed conditions and the new lowered production costs the greatest opportunity to buy and to make Fur-

niture in years.

What is more-thousands of dollars' worth of Suites and Pieces for Spring and Summer needsspecial purchases and surplus lots bought from prices. Incomparable values that add to the innumerable opportunities that have made the Van Sciver Store the Furniture Supply Center of the

This elegant Dining-Room Suite, of the Queen Anne Period, with its graceful lines and artistic ornamentation, is a triumph of the carver's and cabinet maker's art. Note the fine proportions and the decorative nicety of the Buffet and China Closet. The chairs, with their curved arms, depict with pleasing fidelity the fiddle back, so typical of this Period. Likewise, the beautiful rounded cabriole legs help to produce the extremely rich effect which gives the entire Suite its elegance and charm. In Walnut or Mahogany.
