Nancy Wynne Talks of the Whelen-Bell Wedding This An moon in Haverford-She Speaks of the Yarmarka in Emergency Aid Gardens

THE wedding of Paulina Bell and Jack Whelen takes place in Haverford at 4 o'clock this afternoon, and will be followed by a reception at half after 4. From what I have heard of the bridesmaids' dresses, I think they will be excusite: Jade green, my dears, very plain, no trimming, and satural-colored straw hats trimmed with calla lilies. The cream of the lily and the green of the jade, won't it be lovely? So cool-looking and, let us hope, cool-feeling, because with this new daylight saving rule 4 o'clock is really only 3 in standard time, and you know how hot 3 o'clock of a June afternoon can be.

T'S FUNNY how when the warm weather we have been expecting for reeks finally comes we just about pass out, even if it is not very severe. Perhaps it's the humidity, but whatever it is, it's trying, to say the least, and many of us have been tried these last few days. I hope this afternoon will be nice for the Yarmarka. Did I tell you that means "yearly market"? Well, it does in Russian, and as this is a Russian affair, a Russian name is used. The Princess Cantacuzene will be here from New York to attend the fair and sale of Russian things, and will be given during the afternoon. The Yarmarka is to be held in the Emergency Ald gardens, which head Harrisson row, on Locust street, you know. weather we have been expecting for son row, on Locust street, you know, and it will be cool and lovely there. Those who will receive at the affair are Mrs. George Horace Lorimer, who is chairman of the Princess Cantacu-gene Committee of the Emergency Ald: Mrs. J. T ALWAYS seems to me that funny happenings at weddings take place and this time of year. Here is the latest I have heard of and it is a won-der. It happened at a wedding about a month ago. The matron of honor, who is a very dear and muchly loved person, has the darlingest wee daughter, who wanted to see "muvvy" walking nisle ever and ever so much. took her to the church and placed her in a pew high up with other members of the family, and she had a conderful time, for everywhere she coked she saw a smiling face, and

well, the music began, and there came the bridal party and "muvvy" all pretty and sweet, walking ahead of the bride. Small daughter looked long tion at their home all pretty and sweet, walking ahead of the bride. Small daughter looked long and hard at her, and evidently approved; for having seen she turned to other amusements and began making "blow mouths" at her small cousin in the next pew. That was all well and good, but when the clergyman came to the part. "If any man can show just cause why these two persons may not lawfully be joined together let him now speak or else forever after hold his peace"—you know that tense moment when you always think. "Oh. wouldn't be awful if any one said anything. Well, any way, just at that moment the baby decided to be more effusive in her blowing of mouths, and as the word "peace" died away—just before "I require and charge you both"—"Boo, said Miss Baby at the top of her lungs, and the whole church and bridal party was just about electrocuted.

Mr. and Mrs. Morris Joseph, 2442 West Cumborland street, gave a reception at their home on Sunday in honor of their daughter, Miss Minnte Joseph, when more than 200 guests were entertained. Among those who assisted in receiving wore Miss Rosalle Speyer, Miss Mildred Watiz. Miss Charlotte Levisson and Miss Anne Phillips. The guests included Mr Gilbert Greenberg, of Huntingdon, Pa.; Mr. and Mrs. L. Levi, Mr. and Mrs. A. L. Levi, Mr. and Mrs. A. L. Levi, Mr. and Mrs. Charles Joseph, Mrs. Athur Chen. Mr. and Mrs was just about electrocuted ..

## The Most Modern Shoe

Scientists today deplore the wear-ing of shoes which bind the foot and prohibit the free action of the muscles. Primitive peoples, who wore simple foot coverings of soft skins, had feet that were graceful and sturdy. Their walk was elastic and untiring.

The ordinary stiff-soled shoes of 'civilized" aces cause many serious foot troubles because they check the circulation and weaken the muscles by disuse. But the Cantilever Shoe gives the foot perfect freedom. Itsupports a weak arch without harmful restraint. The flexible shank encourages the foot to arch and bend, to EXERCISE. It strengthens the muscles surrounding the small bones of the arch. In this splendid natural way, Cantilevers prevent and correct flat foot.

The Cantilever Shoe has a natural inner sole line that permits the toes to point straight ahead as they should for comfort. The heel is set to distribute the weight properly, without strain on the arch. Every detail is designed for ease and health. And without sacrifice of good looks!
