

BRITISH FAVORABLE TO DISARMING PACT

London Times Editorial Discusses Proposed Anglo-American World Agreement

EQUALITY OF OPPORTUNITY

By the Associated Press London, June 17.—In a lengthy editorial, the London Times today discussed a dispatch from its Washington correspondent interpreting the attitude of the Harding Administration and American opinion on the general aspects of a plan for a working Anglo-American understanding of worldwide scope, particularly on disarmament.

The correspondent declared that while Ireland and the apparent unwillingness of this country to apply the principle of equal opportunities in mandated territories were the chief obstacles to a working arrangement between the United States and Great Britain, the first step to that end might be made in an agreement to limit expenditures for naval armaments. The dispatch suggested the initiative in reaching such an agreement might come from the British side.

The editorial, referring to the suggestion that the coming imperial conference should result in an announcement of the willingness of the British Empire to agree to naval disarmament, commended the idea that the plan for limitation be determined by a financial formula. It declared that, while Great Britain eagerly reciprocates the desire for an agreement, it must be conditioned to circumstances in which this country stands.

"Obligations of honor, as well as vital interests relative to the maintenance and consolidation of our relations with France on the basis of the Versailles Treaty," the newspaper asserted, "are essential parts of our world policy."

"The newspaper declared, in discussing the address of Secretary Hughes at Providence, R. I., that there should be no discrimination in favor of nationals of any country. "Opinion here for generations before the war," it continued, "strongly opposed anything in the nature of an exclusive commercial policy, and warmly favored the open door and equality of opportunity. The desire of America to share in the development of the natural resources of the world is quite in accordance with the principles we consistently have advocated and applied. They are expressly safeguarded by the covenant of the League of Nations, which contemplates equality of rights between the signatories, qualified, it is true, by some equality of responsibility."

Remarking that some of these responsibilities place heavy burdens upon those who undertake them, the newspaper added:

"The United States, for reasons which seemed good and sufficient, has not undertaken any of them. While declaring Great Britain should without delay settle the Irish question, the editorial concluded by saying: "Those who wish Ireland well cannot make a worse mistake than to regard the Irish question, even by implication, an international problem."
