CONVICTION TO NAME REFEREE OR BIG FIGHT IS OFF

Chairman Robert H. Doherty, of Jersey Body, Makes Statement at Dinner

CERTAIN PARTY WANTS TO NAME THIRD MAN

Hackett, N. J., June 17.—At a dinner given to Charles J. Lyons, of the Jersey Boxing Commission, at the Southern Hotel, Fairview, last night, Robert H. Doherty, chairman, made the statement that if the commission cannot have the privilege of naming the referee for the Dempsey-Carpentier fight in Jersey City, July 2, there will be a serious situation had to be met because a certain party believes he should have the privilege of naming the referee.

Senator Alexander Simpson, who was one of those present, said that if the commission did not show back to him and his party, he would name the referee and name the next fight to be the boxing law in New Jersey.

So far as any official action is concerned, the question of who will referee the bout on the afternoon of July 2 still is a moot one. The action in the matter was to have been taken at a meeting of the New Jersey State Boxing Commission yesterday afternoon in Jersey City, but the definite promoter of the bout, Ed Thayer, after the executive session convened that the pressure of other business was so urgent that he could not possibly attend, and the meeting was postponed until next Monday.

The New Jersey officials acquiesced in the making of an announcement did not state definitely that the meeting would be held, but he declared that an official notice would be sent out setting the date. It was believed that Rickard requested the postponement primarily because it was impossible for Jack Kearns, Dempsey's manager, and Francois Desamps, Carpentier's business representative, to be present.

It was rumored in Jersey City yesterday afternoon that the Boxing Commission had already made up their minds that Harry Ertie, who officiated in the bout between Carpentier and Battling Levinsky and has refereed other important ring battles in that State, should referee the fight. Ertie, who is directly concerned with the French challenger. It was said that they were perfectly willing to give any who might oppose this selection a chance to formally present their protests or objections, but that they were convinced that no sufficient grounds for protest existed to make them change their minds.
