THE SUMMER GIRL KEEPS TO PRINTS

By CORINNE LOWE

The English print is going through many new additions this summer. Yet last summer we began to think it would be out of print, so contentedly did this quaintly patterned fabric dot the shores of the Atlantic Ocean.

Today we show a charming little morning dress made of English print, combining blue and lavender in its sprigged design. It is made up with white organdy and with dull blue grosgrain ribbons.

These latter will be noticed in coquettish little bows attached to two side pockets and to the vestee.

things her uncle was saying to Dorry Lander. "You can laugh, young man, but the love philter is not exactly that—it has a wondrous charm that wins the hardest heart."

"Yes, it is the flute of old Ab' Yussuf, now a venerable sheik, and patriarch of his tribe in the Arabian desert. He told me wondrous stories of its power to win the love of a maiden."

"Just play it before her—that's what he said—and believe me, Dorry, he must have been a handsome rascal in his youth. I took the flute—I thought I might use it some day—but deuce take it all, the only girl I had fancied married while I was on that trip and so the flute has never been used. I have kept it as a curiosity."

Dorrie took the case and thanked the donor. "I feel like a fool, Mr. Willie. I never played a flute."
